UTAH STATE OFFICE OF EDUCATION
SCHOOL FINANCE & STATISTICS
REFERENCE GUIDE
FY14
R277-424

Revision: 03/21/2013

This section illustrates the (I) Minimum School Program codes, (II) indirect cost eligibility, (III) disposition of unexpended flow-thru funds with related explanations on page 3, (IV) instructions on pass-through grantor's numbers; and (V) CFDA numbers.

If the object code is 7509, use the REVENUE CODES & CONTACTS sheet (via the Allotment Memo) to determine the relevant contact. If the object code is 7511 or 7521, call Cathy Dudley.

I Minimum School Program Chart of Accounts

1/12 Allocated by Formula, Distributed @ 1/12th per Month.
C20 Allocated by RFP, Distributed by C-20/Card 4.
C4 Allocated by formula, Distributed by Card 4. (C-20 not necessary)
\# Allocated by USOE staff, Distributed by Warrant

II Indirect Cost Eligibility

In accordance with instructions promulgated by the United States Department of Education, the indirect cost rates for Utah LEAs will be based on the Predetermined Fixed Rates with Carry Forward Provisions method. This particular methodology must be prepared annually and retained by the USOE for subsequent cognizant Federal agency review.

When applying a rate to a grant or contract, the approved rate in effect at the time the allowable costs are incurred determines the amount of indirect costs that may be charged to the grant or contract, i.e., the approved rate for FY10 must be matched with the applicable expenditures for FY10.

Each program or source of revenue is unique to the application of indirect cost rates. Indirect cost rates are determined from data acquired from the AFR. The Federal Indirect Cost Plan determines the actual percentages. The following characters illustrate the eligibility of certain programs listed previously as to the application of indirect cost rates, i.e.,

R = Restricted Rate ***NR = Non-Restricted Rate*** ***NA = Non-Allowable***

III Disposition of Unexpended Flow-thru Funds

Generated or authorized state revenues under the State-Supported Minimum School Program may be carried over at the end of the fiscal year, but some of those revenues are subject to certain restrictions. Any questions concerning the disposition of certain funds should be directed to the respective program coordinator at the USOE.

The following listing describes the general disposition of both MSP funds and some of the other funds frequently encountered. The letter corresponds to the respective programs listed previously.

A. These non-restricted revenues may be carried forward and expended in any of the school programs.

B. This restricted revenue may be carried forward, but must be expended in any program within the small school which originally generated the revenue, or for Board Leeway revenues must be expended for Class Size Reduction.

C. The carry-forward of these restricted revenues is subject to terms and conditions provided by the USOE program coordinator. If RFP, these restricted revenues must be expended in the specific program where the allocation was orginally designated.

D. If RFP, the carry-forward of these restricted revenues is subject to terms and conditions provided by the USOE program coordinator, and these restricted revenues must be expended in the specific program where the allocation was originally designated. If not RFP, then the restricted revenues must be expended in the block where the allocation was orignally designated.

E. All school lunch revenues are allocated on the reimbursement basis; therefore, carry-forward alternatves are not applicable.

F. Federal revenues have various terms and conditions as stipulated by each grant. Any questions concerning the disposition of these funds should be directed to the respective program coordinator at the USOE.

IV Pass-Through Grantor's Number

A-133 310 (b) (2) requires that the pass-through grantor's number appear on the Schedule of Federal Financial Assistance as applicable.

The grantor numbers for Federal assistance received through the USOE is derived from the coding sequence contained in the Recipient Report.

A typical USOE code in the Recipient Report will appear as follows:

Recipient	00	District X
Year	09	
Revenue	19	Federal IDEA PI 101476 84-0272
Division	06	Student Achievement
Project	30	Flow Through

From this, the six-digit grantor number is determined using the following method:

YY-RRDD

. . . Where	Y	=	Year
	R	=	Revenue
	D	=	Division

Hence, from the actual coding sequence displayed earlier, the acceptable grantor number would be:
