Sixth Grade Language Arts Blueprint--July 2010

Important Information:

• The purpose of test blueprints is to make sure that the intended breadth and depth of the curriculum is represented on the CRTs.
• The item counts provided in the blueprint (below) are the number of items which contribute to a student's CRT score (operational items).
• Blueprint totals have been reduced to allow piloting of new passages and items without increasing the total time needed for testing.
• In order to maintain continuity from previous years, the percentage of items for each standard and objective has not been changed significantly.
• The Grade 6 ELA CRT has a total of 71 (operational plus pilot) items, with pilot items scattered throughout the test.
• The Grade 6 ELA CRT should be administered in 2 separate testing sessions.
