Report is based on school reported data. Transfer codes reported are not validated to their destination

*Fall enrollment does not include kindergarten. Kindergarten is not required in Utah.

**Reenrollment % includes students present in fall enrollment in year one (October 1) and fall enrollment in year two (October 1). It does not remove or filter out students for any reason. The Potential Retuning Students Count includes students that could return to the school. It does not include students at the maximum grade the school serves. For example 12th graders at a high school would not typically be returning to a high school, and thus these students would not be included in the percentage calculation.
