** There were 1,879 charter school students in the 2012 Federal 4-Year cohort. Of these, 71% (1,331) graduated. The overal State of Utah had a graduation rate of 78%. The graduate category only includes students who have earned a basic high school diploma or an adult education secondary diploma during the year in which they were expected to graduate. "Other completers" included students who participate in the GED or obtain a certificate of completion, and students with disabilities who participated in the Utah Alternative Assessment are not counted as graduates, or dropouts for calculation purposes. This is based upon the New Federal Graduation Caclulation and is the same methodology used in the Utah Comprehensive Accountability System (UCAS).
