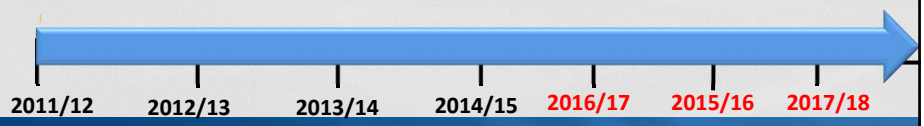
  - State Chief Task Force
  - Foundation Support



Utah Education

Algebra Requirement

- The AYP math calculation for high schools will be determined by calculating the percent of 10th grade students who scored proficient on the Algebra I CRT in 10th grade year or a prior year.
- What about students who take the UAA? The 10th grade UAA will convert to an Algebra I CRT score.
- What happens to a 10th grade student who has not yet enrolled in Algebra I? They count as non-participants.

Text-to-speech

- Text-to-speech will provided on all 2012 CRTs
- Assessment accommodations should mimic instructional accommodations
- Students should be provided text-to-speech accommodation during instruction whenever appropriate and possible
