About OnTrack

OnTrack - The Utah State Office of Education's Professional System

The Utah State Office of Education's OnTrack system is a statewide Teacher Development management, tracking, and reporting solution that enables local districts to improve the effectiveness of their professional development programs.

OnTrack:

- Provides a single, personalized entry point to online administrator and teacher development resources.
- Distributes time-sensitive, targeted announcements.
- Manages, tracks, and reports on professional development.
- Creates customizable educator assessments and surveys.
- Aligns professional development to state and local standards.
- Provides individualized portfolio management and mentor support.

To log-in to the system, enter your name and CACTUS ID in the fields on the right side of this page. Use your name as it appears in CACTUS with all lower case letters in a first.last pattern for the Log-in ID field.

Then enter your CACTUS ID# as your password.
