# Tips for Success

- Tips for success
  - Carefully read everything, paying particular attention to the scoring rubrics.
  - Allow yourself plenty of time to conduct planning, gather data, and collect the necessary information from other sources.
  - Consider the grant cap and funding requests over the entire thirty-six month grant period.
  - Follow the directions for the format and sequence of your proposal.
  - Proofread your final proposal.
  - When you have finished writing your proposal, have someone who has not been involved in the writing process read it and score it using the rubrics.
  - Utilize the Final Checklist (pg. 4).

# Authorized Contact

- Definition: The person who has the legal authority to sign legal documents on behalf of the school. The authorized contact should be a member of the charter school and not an educational service provider. Board authorization needs to delegate responsibility to the authorized contact to execute the approved grant application, comply with the certifications of the grant program, including all fiscal requirements, and act as the board's authorized official for the grant award. The authorized contact can have no conflict of interest with any party (i.e., employee, contractor, vendor, etc.) that has a financial interest in the grant award.
- Responsibilities:
  - Oversight of the entire grant project.
  - Manage grant budget.
  - Responsibility for compliance with state laws and guidance regarding grant management.
  - Liaison with CSS and attend required meetings.
  - Liaison with charter school governing board to provide regular updates.

# General Grant Management

- Change of Status. Should the charter school change to non-charter status within ten years of receiving grant funds, grant funds must be reimbursed to SCSB.
- Conflicts of Interest. The authorized contact and governing board members must have no real, apparent, or potential conflicts of interest with any vendors or personnel contracted to provide equipment or services funded under the grant except as provided in U.C.A. §53A-1a-518.
- Extension of Time to Expend Grant Funds. If grantee schools anticipate that they will be unable to spend grant funds by June 30, an extension request must be filed. An extension allows up to 90 additional days to expend funds. Extension requests should outline the reason for delay, the amount of carryover, and the anticipated new end date. The grantee is still bound by the approved budget. Extensions are subject to approval by SCSB and are not guaranteed. It's important to monitor spending throughout the year and make the necessary budget revisions to meet the June 30 deadline. An extension should be the last resort when budgeting funds. The following year's funding will be held until spending of the extended funds is complete.

# Financial Responsibilities

- Audits. Grantee schools are responsible for annual financial audits, including these grant funds, and are expected to provide its fiscal agent with complete financial information to satisfy federal and state requirements.
- Financial Reports. An AFR and APR is required to be filed by October 1 each year. If the AFR and APR is not filed on time, complete, and accurate, grantees risk losing their funds for the following year.
- Termination of Award. If it is determined that any grant funds have been misused, grant funds must be returned to SCSB. SCSB may terminate a grant award upon 30 days' notice if it is determined that the applicant is not fulfilling the funded program responsibilities as specified in the approved application.
- Final report. Grant final reports are due within 30 days of the grant end date.
