SSID System 10/26/2005

• To those of you who have been using the SSID system. Thanks for your patience and support working through minor issues using the system this past two months.

SSID System Status

The latest version of SSID software and web site was deployed earlier this month on 10/6/2005 to version 1.1.

- o Added FAQ sheet to website
- o File Summary Page updated
- o Edit User Info. Page now has additional validations (User Id's are automatically created)
- Added additional error codes
- o Updated UBSCT timelines
- o Verify will automatically insert a new location at an LEA if one already exists for the student at the LEA.
- o Login screen checks for the approved user flag (can only be set by Geri at USOE)
- o Student search screen allows search for student using LEA and LEA student number.

File Validation version 1.0L 10/3/2005

- o LEA validation in SSID Request files. (LEA submitting file is LEA in file.)
- o Create SSID Request file without error rows after completing validation.

New Document called SSID FAO sheet.

NEW document contains questions that have been asked regularly and responses.

SSID User Manual 1.1 10/5/2005 contains new sections

- o Updated File Processing section in manual to correspond to current version of software. Contains section on how to use LEA value. Updates, etc.
- o Updated all web site graphics in manual.

SSID File Format Specification 0.11 10/5/2005

o Validation section 2.1 was added to the specification.

SSID LEA Submission Information

- o LEA Administrators can create new users but they can not activate them. Geri has to do this after receiving the appropriate forms from the LEA.
- o User Id is automatically created based upon the LEA, first name and last name fields.
