Arts Education Program Grants
Artist in Residence
Arts Education Projects
Teacher Initiated Projects
ALL APPLICATIONS ARE DUE MARCH 1 of every year.

Artist in Residence:

The Artist in Residence Grant provides schools and organizations with the opportunity to have an artist come to their site for at least 40 hours, and more if there are available matching funds. The hours can be condensed over a two week period, averaging 4 hours a day; or the site might invite an in-state artist to come to the site two hours a week for several months until the 40 hours are depleted. The grantee/sponsor, selects the artistic discipline of choice and the artist from the Utah Arts Council's Artist Roster (www.arts.utah.gov/ae). The grantee/sponsor plans the residency with the artist and the grantee/sponsor applies by March 1 to the UAC/AE program for an Artist in Residence Grant to be implemented the following fiscal year (July 1/June 30). The grantee/sponsor pays for part of the artist's salary through matching funds submitted to UAC/AE. UAC/AE pays the remainder of the artist's salary, and provides funds for artist preparation time, travel, lodging and per diem. The grantee/sponsor also pays for any instructional materials, such as, paint and particleboard for a mural. First time grantee/sponsors pay for 50% of the artist's salary. Second and third year grantee/sponsors pay for 65% of the artist's salary. Fourth year and beyond, grantee/sponsors pay 70% of the artist's salary. In all cases, regardless of number of years as a successful grantee/sponsor, the UAC/AE pays all remaining salary, preparation time costs, lodging, travel and per diem.

Arts Education Projects:

Arts Education Project grants provide funds to schools and organizations to do more complex projects than the artist-in-residence. Projects may combine more than one discipline, integrate artistic disciplines into other core subject areas, stress professional development for staff and teachers, facilitate participant created site-specific permanent work, etc. It is strongly suggested that grantee/sponsors apply in the residency area for at least one or two years before applying for an arts education project. Funds primarily are used to pay an artist or artists and/or artistic companies for their services in implementing the project. A small portion of the funds may be used for consumable supplies necessary for the project. PLEASE see the grant guidelines for a list of components that UAC/AE is unable to fund.

Teacher Initiated Projects:

TIP grants provide teachers with \$500 to pursue their own advancement in a particular artistic discipline through one-on-one instruction with an artist. Teachers may also use the funds to pursue other opportunities for professional development as long as it supports the artistic development of the teacher as artist and/or teacher as arts educator.

For on-site technical assistance, brainstorming about your programs and exploring arts education ideas for grant applications, call Jean - 801.320.9794 or email Jean at jirwin@arts.utah.gov
