PROVO DISTRICT	10,745	6,217	2,234	36%	634	50%	49%	49%	UTAH VIRTUAL ACADEMY	26%	18%	22%	What is the difference between an "In-District" and a SOEP ("Out-of District") online provider? An in-district provider offers online courses to students within a particular district or charter school, under auspices of that district or charter school, as a service to its own, internal students. All SOEP online Providers are out-of-district providers, because the Statewide Online Education Program has been set up specifically to allow students to have access to a range of online courses, regardless of what their own school districts and charter schools choose to offer internally, as a courtesy to their own students. SOEP courses are governed by a set of statute and State Board of Education Administrative Rule designed to ensure that courses are high quality, and meet Utah State Core Standards, and that students have the assistance of licensed, highly qualified teachers. State Board Administrative Rule also requires that all SOEP Providers are accredited for 9-12th grade education, such that all courses will be recognized for purposes of meeting high school graduation requirements at the student's Primary School of Enrollment.
