Emergency Preparedness and Emergency
Response Plans

Utah State Board of Education School Safety Center
January, 24 2024 | 10:30 - 11:30 AM

**Utah State
Board of
Education**

**SCHOOL
SAFETY
CENTER**

ADA Compliant: 2/1/2024

Welcome!

- Please update your Zoom name to **First Name Last Initial, LEA Name**.
- Complete the **Poll Everywhere** by 10:35 AM.
 - (Registration is not required.)
 - **Hint:** Find the School Safety Specialist Overview PDF attached in a previous email.
- Housekeeping:
 - Throughout our training, if you're in Zoom use the Q and A feature to ask questions. If you're in YouTube, use the Chat feature. (We love to keep track of all questions!)
 - Shaleece will facilitate all questions in the Q and A feature.
 - Check your SPAM folder for emails from schoolsafetyprograms@schools.utah.gov.

Law and Policy

- The Utah State Board of Education is tasked by the legislature to make administrative rules regarding various topics within education. These rules have the effect of law and govern many areas that impact all levels of the education community.
- Statute & Rule
 - <https://le.utah.gov/> & <https://www.schools.utah.gov/administrativerules>
 - Statute: 53G-4-402(20)
 - R277-400: [School Facility Emergency and Safety](#)

R277-400-3: Establishing LEA Emergency Preparedness and Emergency Response Plans (1)

- (1) By July 1 of each year, an LEA shall certify to the Superintendent that the LEA's emergency preparedness and emergency response plan has been:
 - (a) practiced at the school level; and
 - (b) presented to and reviewed by its teachers, administrators, students and parents, local law enforcement, and public safety representatives consistent with Subsection 53G-4-402(18).
- (2)(a) An LEA's plans shall be designed to meet individual school needs and features.
 - (b) An LEA may direct schools within the LEA to develop and implement individual plans.

R277-400-3: Establishing LEA Emergency Preparedness and Emergency Response Plans (2)

- (3)(a) An LEA shall appoint a committee to prepare or modify plans to satisfy this Rule R277-400 and Section 53G-4-402(18).
 - (b) The committee shall consist of appropriate school and community representatives, which may include:
 - (i) school and LEA administrators;
 - (ii) teachers;
 - (iii) parents;
 - (iv) community and municipal governmental officers; and
 - (v) fire and law enforcement personnel.
 - (c) The committee shall include governmental agencies and bodies vested with responsibility for directing and coordinating emergency services on local and state levels.

R277-400-3: Establishing LEA Emergency Preparedness and Emergency Response Plans (3)

- (4) An LEA shall review plans at least once every three years.
- (5) The Superintendent shall develop Emergency Response Plan models under Subsection 53G-4-402(18)(c).

Utah School Safety Trends and Purpose (3)

CRISIS CHATS & TIPS

Figure 1 shows use (which includes both crisis chats and tips, which are reports to the user's school) has gradually increased over the past three years. On average, SafeUT sees 104 new users per term (e.g., fall term, winter term, summer) per 100,000 enrolled students. Note use tends to drop off in summer months, and tends to peak in the middle of the school year, either March (2018, 2019) or November (2019, full data not shown here for ease of interpretation). Use decreased during the COVID-19 pandemic, largely because of reductions in tips, but with a slight increase in chats (data in preparation).

104

ADDITIONAL UNIQUE USERS
ACCESSING SAFEUT EACH TERM,
ON AVERAGE

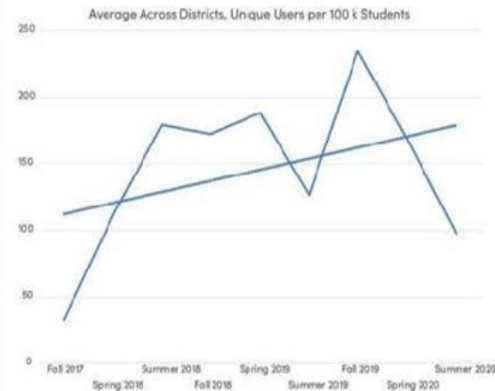

Figure 1. Average number of unique users per month, per 100k students, across the entire state of Utah, since the broader rollout in Fall of 2017. An important disclaimer is SafeUT users have the option of sharing their location information. Based upon this selection by users, nearly 63% of users indicate their location. In result, all data provided here is only based upon that 63% of users. The other 37% could be using SafeUT in a distributed way across Utah, or could be using it in places where SafeUT utilization is lower. A second disclaimer is the data is included by unique users, based upon the Apple or Android app that was accessed. It is possible siblings or family share a particular device, so the data may underrepresent the actual number of unique users. Conversely, some users could delete and reinstall the app, artificially increasing the apparent number of unique users. Nonetheless, it is likely the data generally reflects the number of unique users, on a monthly basis, as a rate of 100k students.

HIGHEST & LOWEST UTILIZATION DISTRICTS

In Figure 2, use in the highest utilization districts are displayed. These districts are the main drivers of increased utilization over the past four years. Figure 3, on the other hand, illustrates the districts with lowest utilization to date. There are a small number of districts that have fairly sporadic use. This suggests the

possibility of increasing SafeUT uptake in those areas through additional marketing and outreach. As a number of these districts are quite small, it is also possible there are other means by which children with mental health crisis needs are accessing resources.

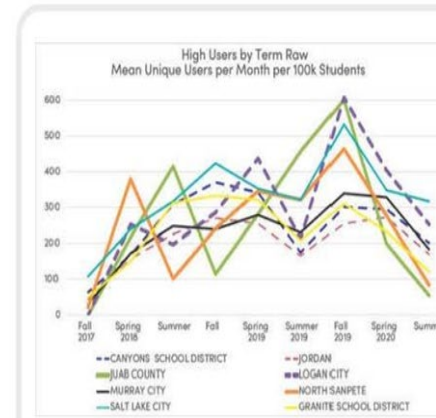

Figure 2. Average unique numbers of users in the highest utilization school districts. While most of these are in the Wasatch Front, they do extend north to south and do include central and southern districts.

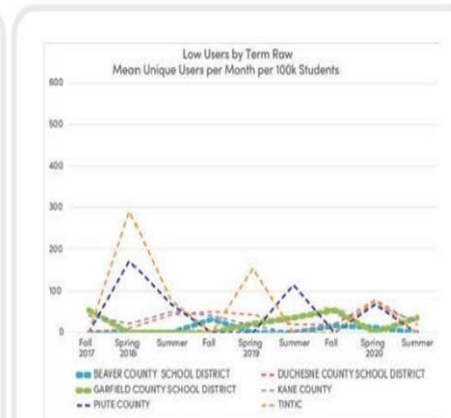

Figure 3. School districts with low utilization, Fall 2017-Summer 2020

Prepare and Readiness

- Work through incidents by utilizing:
 - SafeUT (students, parents/guardians, staff)
 - SIAC (Statewide Information and Analysis Center)
 - siac@utah.gov
 - Readiness and Emergency Management for Schools (REMS)
- Dealing with tips, hoaxes, and bomb threats:
 - Refer to local emergency operations plans
 - December 15, 2023
 - Coordinate with local first responders

Helpful Resources

- Refer to local School Policies, Procedures and Agreements
- Report to Local Law Enforcement
- Encourage reaching out to SafeUT
- USBE

Developing High Quality Emergency Operation Plans

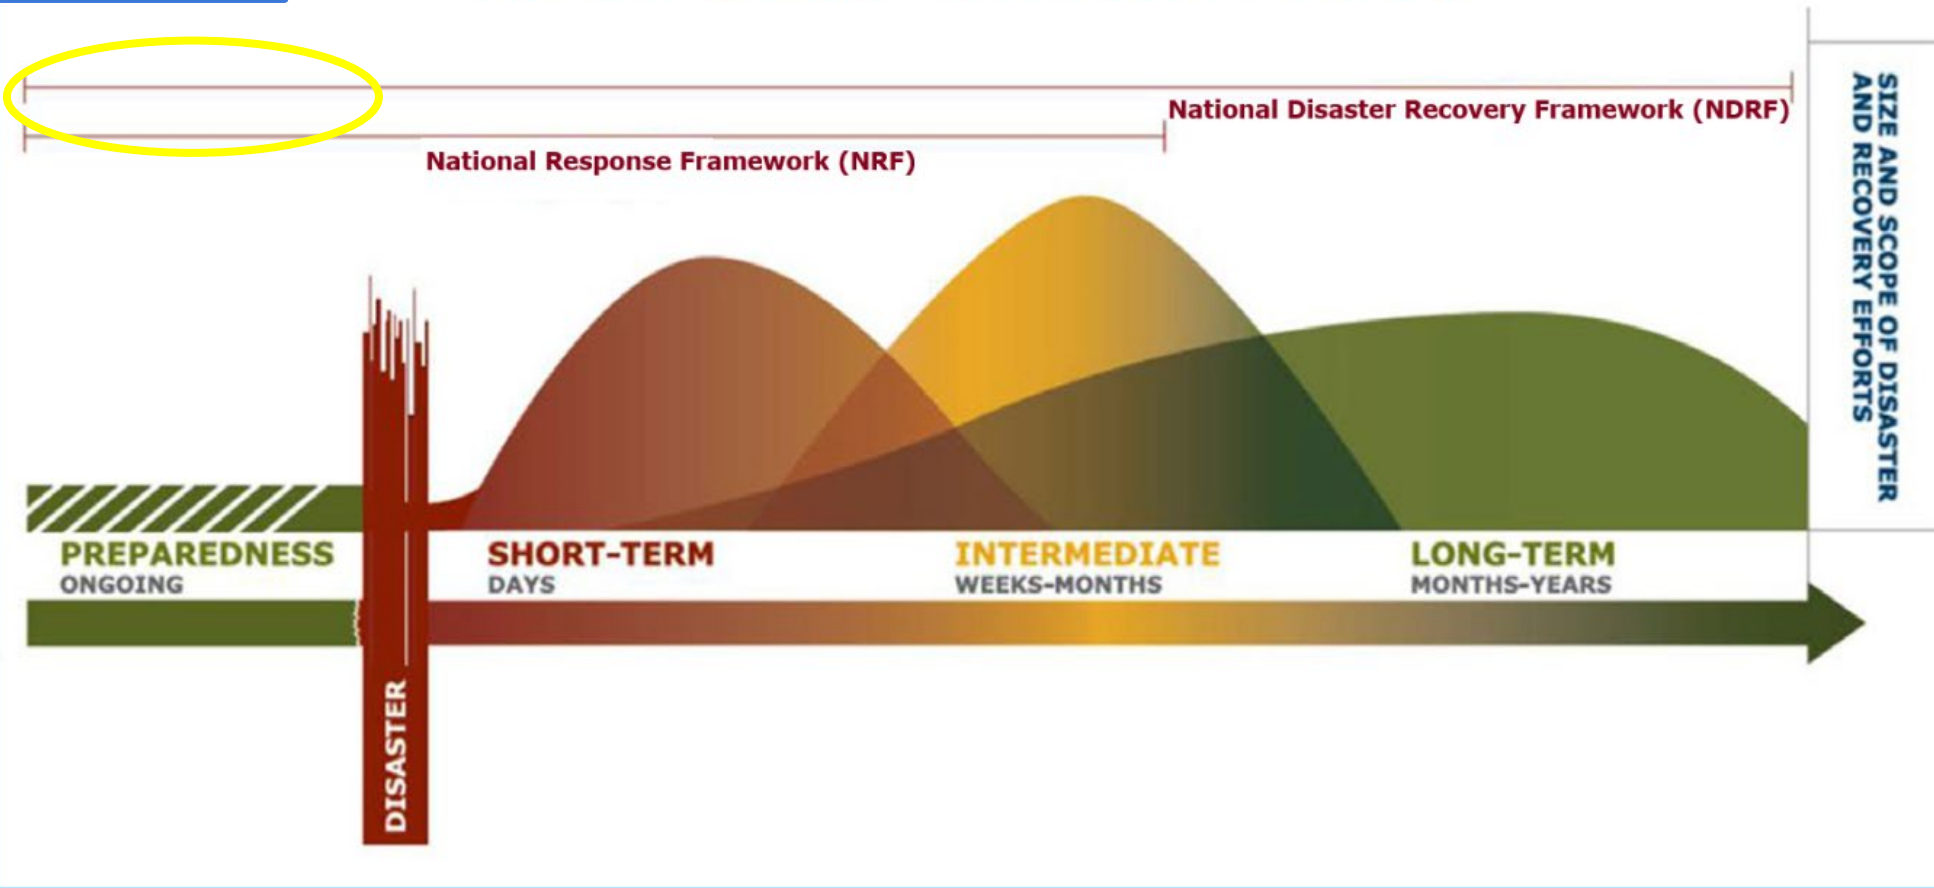

5 Mission Areas:

1. Prevention	BEFORE
2. Protection	
3. Mitigation	DURING
4. Response	
5. Recovery	AFTER

Preparing for recovery in advance of disaster

RECOVERY CONTINUUM

What Exactly *is* Recovery?

- School Climate - describes the conditions that influence student learning (ie; environment, safety, engagement)
- Recovery - a return to a normal state of health, mind, or strength
Also includes:
- Disaster Recovery - the actions taken in the aftermath of a crisis to return organizational operations to their previous state and to mitigate the potential effects of future crises

Four Components of Recovery for Schools and Local Education Agencies (1):

1. **Academics recovery.** Learning is the primary purpose of schools, and the ability to resume academic activities is essential to a school's recovery. The resumption of teaching and learning begins to restore normalcy to the school environment through routines, which can be very important in the psychological and emotional health of students, teachers, and staff.
2. **Physical and structural recovery.** This type of recovery is needed to support education and involves the restoration of the school's buildings, equipment, and supplies.

Four Components of Recovery for Schools and Local Education Agencies (2):

- 3. Business functions recovery.** The school's or school district's business operations that also serve as a support function to education, such as payroll and contracts, need to be fully restored if impacted by an emergency.
- 4. Social, emotional, and behavioral recovery.** Even though academics, physical and structural, and business functions recovery may have ended, the social, emotional, and behavioral recovery of students, teachers, and staff may continue long after. For students, the emergency event may have led to a lack of engagement, poor attendance, tardiness, incomplete assignments, antisocial behavior, and withdrawal.

Recovery is Not Linear

Proximity Influences Recovery

Population Exposure Model

Those closest to the “epicenter” of the disaster in terms of immediate and severe impact are most likely to be affected psychologically.

Adapted from : U.S. Dept of Health and Human Services. (2004). Mental Health Response to Mass Violence and Terrorism: A Training Manual. DHHS Pub. No. SMA 3959 Rockville, MD; Center for Mental Health Services, Substance Abuse and Mental Health Services Administration. p. 11.

Being Prepared Supports Recovery

Preparedness Matters

- Preparation can limit or prevent certain disasters
- Preparation can save lives
- Preparation can reduce fears
- Preparation can make it easier to recover

Call to Action

1. School Safety Specialists will be aware of the location of your school's and local education agency's (LEA's) emergency response protocols.
2. By our next webinar, March 27, 2024, School Safety Specialists will:
 - a. Work with the appropriate administrator to review your school's Emergency Preparedness and Emergency Response Plans.
 - b. Create/Update the emergency response protocols with your school and community stakeholders.
 - i. To be completed by the state deadline of July 1, 2024 ([R277-400-3](#)).
