2. Your signature is required to complete the application.
3. The statute creating the Special Needs Scholarship program requires that applications will be submitted to a public school district or charter school. **DO NOT submit the application directly to the Utah State Office of Education or to your private school.** Where to submit the application is dependent upon the student's previous enrollment.
  - (a) If the student **was enrolled in public school during the 2013-2014 school years**, the application must be submitted to the special education department of the school district or charter school where the student was enrolled.
  - (b) If the student **was not enrolled in public school during the 2013-2014 school years**, the application must be submitted to the special education department of the school district where the private school is located.

Please note that applications should be submitted to the district office of a school district. Do not submit your application to the actual school where your child attended. Additionally, charter schools are public schools and are considered their own district. If your student attended a Utah Charter School during **2013-14** you will need to submit the application to the charter school. Be aware that charter schools do not process a high volume of scholarship applications and therefore may need to be directed to call the Utah State Office of Education for directions in processing applications.

You are encouraged to keep a copy of the application and to have the district date stamp your application. Applications do not need to be submitted to the Utah State Office of Education by deadlines listed below, but rather must be received by the district prior to the deadline.

If you have questions about where to submit your application, contact Utah State Office of Education, (801) 538-7721 or [aileen.pace@schools.utah.gov](mailto:aileen.pace@schools.utah.gov)
