## Conditions of Understanding and Issues of Acceptance

When a Special Needs Scholarship is accepted the following expectations are understood and accepted.

1. An eligible student **must be enrolled in an eligible private school** (refer to Eligible Private School list at the website).
2. Private schools become eligible by meeting school eligibility requirements (refer to website for more information).
3. The parent **assumes full financial responsibility** for the education of the student.
4. Acceptance of the Special Needs Scholarship has the same effect as a parental refusal to consent to Special Education services. The “**refusal to consent to Special Education and Related Services**” is clearly understood and accepted (refer to IDEA or state Rules for information).
5. The scholarship **may or may not pay** the full tuition and fees at the eligible private school.
6. Any **remaining tuition and fees** balance after the scholarship has been paid is the responsibility of the parent.
7. A student who receives the special needs scholarship may **not participate in a dual enrollment** program in a public school including participating in extracurricular activities.
8. A parent agrees to provide information as needed to **process payments** and to verify continuing student eligibility.
9. The **amount of a special need scholarship** awarded to an eligible student depends on the level of specialized instruction and related services the student would receive if enrolled in a public school. This is determined by the student’s IEP from the previous school year or the assessment team (see above).
10. The amount of **scholarship is based on the weighted pupil unit (WPU)**, the basic unit of funding for Utah public schools. Students who would have received more than 180 minutes of special education or related services per day if in a public school may receive up to 2.5 times the WPU amount (for 2013-14 this equaled \$7247.50).
11. Students who would have received less than 180 minutes of service per day may receive funds up to 1.5 times the WPU amount (for 2013-14 this equaled \$4,348.50).
12. The scholarship amount may not exceed the tuition and fees charged to parents by a private school.
