

## The Utah State Instructional Materials Access Center USIMAC

The Utah State Instructional Materials Access Center is the center in Utah that receives these electronic file sets and produces them in the accessible alternate format required by the student. The USIMAC supports the acquisition of accessible materials both for students with print disabilities who qualify for NIMAS driven material and those who do not. The State of Utah, and the Local Education Agencies are obligated by IDEA 2004 to ensure that the needs of both groups are met.

The USIMAC will receive requests for instructional materials in alternate formats by

- Searching the national databases for existing textbooks in alternate formats.
- Coordinating with textbook publishers.
- Serving as the NIMAC Authorized User for the State of Utah.
- Ordering or producing textbooks.
- Distributing alternate format instructional materials to districts.
- Maintaining an online catalog of all alternate format instructional materials for the state.

Contact the USIMAC at [www.usimac.org](http://www.usimac.org)
