

***What can be inferred from the evidence? Given the inference, what action might be taken?***

<b>Evidence</b>	<b>Inference</b>	<b>Action</b>
18% of children are reported in category 'a' for outcome 3 (made absolutely no progress while in the program).		
45% of children have an entry rating of 6 or 7 on outcome 2.		
Program A did not report COSF outcomes data for 20% of children that exited with at least 6 months of service.
