#### 1. Transferred to regular education.

Students who were served in special education at the start of the reporting period, but at some point during that 12-month period returned to regular education. These are students who no longer have an *IEP* and are receiving all of their educational services from a regular education program. If the parent of a child with a disability revokes consent for special education and related services under 34 CFR §300.300(b)(4), the child would be reported in this category. This category was previously labeled *no longer receives* special education.

## 2. Graduated with a regular high school diploma.

Students with disabilities who exited an educational program through receipt of a high school diploma identical to that for which students without disabilities are eligible. These are students who met the same standards for graduation as those for students without disabilities. As defined in 34 CFR §300.102(a)(3)(iv), "the term regular high school diploma does not include an alternative degree that is not fully aligned with the State's academic standards, such as a certificate or a general educational development credential (GED)."

3. Received a certificate of completion/modified diploma or some similar document.

A certificate or diploma signifying the completion of the IEP or a secondary educational program which is other than a high school diploma. This includes any alternative degree that is not fully aligned with the state's academic standards, such as a certificate or a general educational development credential (GED), so long as the student remained continuously enrolled in the secondary educational program.

# 4. Reached maximum age for receipt of special education services.

Kate is a 22 year old student with a disability who has not completed her high school requirements. Because she is ineligible for services, the LEA should code her as an AO, which means she aged out of services. The LEA may award Kate a certificate of completion/award of completion, but should NOT code her as CT. She will not be considered a dropout but will be considered a "non-graduate", or more specifically, an "other completer".

### 6. Moved, known to be continuing.

Students with disabilities who moved out of the catchment area or otherwise transferred to another district and are known to be continuing in an educational program. There need not be evidence that the student is continuing in special education, only that he/she is continuing in an educational program. This definition includes students with disabilities in residential drug/alcohol rehabilitation centers, correctional facilities, or charter schools if those facilities operate as separate districts, excluding normal matriculation.

### 7. Dropped out

Students with disabilities who were enrolled at the start of the reporting period, were not enrolled at the end of the reporting period, and did not exit special education through any other basis described (transferred to regular education; graduated with diploma; received a certificate; reached maximum age; died; or moved, known to be continuing). This includes dropouts, runaways, GED recipients (in cases where students are required to drop out of the secondary educational program in order to pursue the GED certificate), expulsions, status unknown, students who moved and are not known to be continuing in another educational program, and other exiters. For school year 2010–2011, the State level will report a four-year cohort to match the Federal data definition; at the building level, a three-year cohort will continue to be reported.
