

Sir Lucky the Knight

Early one morning Sir Lucky rode into the kingdom. It	10
was Princess Rosalie's birthday, and he wanted to kill the	20
dragon in order to make the princess his bride.	29
Everybody was excited. They could talk of nothing but	38
the beautiful princess and the handsome knight. "His name is	48
certain to bring good luck," they said.	55
The day ended with a birthday party. There were	64
delicious things to eat and drink. There were songs about the	75
brave young knight who would certainly marry the princess.	84
There was dancing, too. There was joy all over the kingdom.	95
Now it happened that Richard Brown, a young man in	105
the village, had heard about the knight Sir Lucky. He	115
watched as the knight rode past the little hut where Richard	126
lived.	127
