

Little Ben

One morning Little Ben Beaver left home all by	9
himself. He went across the pond as fast as he could	20
swim. He wanted to pick something for his mother.	29
He wanted to pick something that would please her.	38
Little Ben found what he wanted. It was pretty, so	48
he picked it. Then he started back across the pond. He	59
held the present in his mouth.	65
Little Ben was sure the present would please his	74
mother. It was pretty. It would make up for his small	85
tail.	86
Little Ben knew that his tail was smaller than most	96
beaver tails. He knew it was smaller than the tails his	107
brother and sisters had.	111
