|--------------------------------------------------|----|
| One day Horse looked around and saw his          | 8  |
| tail.                                            | 9  |
| “Oh my,” he said. “Where did I get this blue     | 19 |
| tail?”                                           | 20 |
| Horse was happy with his tail.                   | 26 |
| Then Cat came around.                            | 30 |
| “I see that your tail is blue,” said Cat. “I am  | 41 |
| happy that my tail is not blue.”                 | 48 |
| “Why do you say that?” asked Horse.              | 55 |
| “Cats don’t have blue tails,” said his friend.   | 63 |
| “Take a look around you. Do you see other horses | 73 |
| with blue tails?”                                | 76 |
| Horse looked all around. “I guess there is no    | 85 |
| other horse with a blue tail,” he said.          | 93 |
