

The Luck of Sir Lucky

The next afternoon Sir Lucky went out to kill the dragon.	11
People gathered at the castle gate to see him off. The soldiers	23
marched in a parade, and the singers made music. Flags flew	34
from the top of the wall, making bright spots of color against	46
the sky.	48
When Sir Lucky was dressed, he could hardly move. So	58
a big machine lifted him off the ground and put him on his	71
horse.	72
At last he was ready! The princess gave him a red rose	84
to wear and a blue flag to carry. Then off he rode into the	98
valley of the dragon.	102
