

Significant changes reflected in the FY1516 CE Master List

ENGL 1010. Effective FY1516, ENGL 1010 CE should be aligned to 06020013070 Language Arts II CE. Previously LEAs could choose between this code and Intro to Expository Writing CE.

World Languages. Effective FY 1516, all languages courses are realigned as follows:

1010 courses align to LEVEL 2

1020 courses align to LEVEL 3

2010 courses align to LEVEL 4

New codes for World Languages will be published March 1, 2015. LEAs will receive notice so that codes can be updated. These realignment changes are reflected on the master list highlighted in green.

MATH 1010. The FY1516 enrollment condition is successful completion of Secondary III plus meeting institution prereqs of ACT or Accuplacer score. The MATH 1010 enrollment conditions are listed “for FY1516 only” because the USHE Math faculty are working to develop different Math course options.

NOTE: See additional changes to course 11-digit core codes and code titles as well as college are highlighted green.
