(6) The sum of regular plus self-contained special education and self-contained YIC membership days may not exceed 180 days.

(7) The sum of regular and resource special education membership days may not exceed 360 days.

(8) The sum of regular, ISI-1 and ISI-2 YIC membership days may not exceed 360 days.

R277. Education, Administration.

R277-445. Classifying Small Schools as Necessarily Existent.

R277-445-1. Authority and Purpose.

(1) This rule is authorized by:

(a) Article X, Section 3 of the Utah Constitution, which vests general control and supervision over public education in the Board;

(b) Subsection 53F-2-304(3), which requires the Board to adopt rules that:

(i) govern the approval of necessarily existent small schools consistent with state law; and

(ii) ensure that districts are not building secondary schools in close proximity to one another where economy and efficiency would be better served by one school meeting the needs of secondary students in a designated geographical area;

(c) Subsection 53F-2-304(7), which requires the Board to define isolating conditions, which may qualify a non-NESS school for additional funding; and

(d) Subsection 53E-3-401(4), which allows the Board to make rules to execute the Board's duties and responsibilities under the Utah Constitution and state law.

(2)(a) The purpose of this rule is to specify the standards for schools and districts to received funding under the NESS program.

R277-445-2. Definitions.

(1) "ADM" means average daily membership derived from end-of-year data.

(2) "Isolating conditions" means that a school:

(a) is part of a school district that has a student population density of less than one student enrolled per square mile;

(b) is located more than 25 miles by road from a city or town with a population of at least 2,000 people; and

(c) does not qualify for NESS funding due to NESS formula limitations.

(3) "NESS" means Necessarily Existent Small School.

(4) "Small district base funding" means the allocation provided to school districts with NESS schools under Subsection 53F-2-304(8).

(5) "Weighted Pupil Unit" or "WPU" means the basic unit used to calculate the amount of state funds a school district may receive.

R277-445-3. Standards.

(1) A school may be classified as necessarily existent if the school's ADM does not exceed:

(a) 160 for elementary schools, including kindergarten at a weighting of .55 per average daily membership;

(b) 300 for one or two-year secondary schools;

(c) 450 for three-year secondary schools;

(d) 500 for four-year secondary schools; or

(e) 600 for six-year secondary schools.

(2) In addition to the requirements of Subsection (1), one-way bus travel for any student from the assigned school to the nearest school of the same type within the same district shall require:

(a) students in kindergarten through grade six to travel more than 45 minutes; or

(b) students in grades seven through twelve to travel more than one hour and 15 minutes.

(3) Notwithstanding Subsection (2), the Superintendent may classify a school that meets the criteria of Subsection (1), as necessarily existent if:

(a) the school is in a district which has been consolidated to the maximum extent possible;

(b) there is evidence acceptable to the Superintendent of increased growth in the school sufficient to take it out of the small school classification within a period of three years, provided that:

(i) the Superintendent may only classify the school as necessarily existent until its ADM surpasses the size standard for small schools of the same type;

(ii) the Superintendent shall annually compare the school's ADM to the school's projected ADM to determine increases or decreases in enrollment; and

(iii) if the assessment for the first or second year shows the increase in the school's ADM is less than 80 percent of the projected annual increase, the school shall no longer be classified as necessarily existent;

(c) the Superintendent determines that consolidation may result in undesirable social, cultural, and economic changes in the community, and:

(i) the school has a safe and educationally adequate school facility with a life expectancy of at least ten years, as judged, at least every five years, by the Superintendent after consultation with the district; or

(ii)(A) the district would incur construction costs by combining a school seeking necessarily existent small school status with an existing school and such construction and land costs would exceed the insurance replacement value of the exiting school by 30 percent;

(B) the existing school has a life expectancy of at least ten years; but

(C) In the event that the ADM from the school seeking necessarily existent small school status under Subsection (3)(c)(ii), when combined with the ADM at the existing

school exceed criteria in Subsection (1), the Superintendent may not classify the existing school as necessarily existent; or

(d) the school does not qualify under Subsections (3)(a) through (c), and removal of the necessarily existent status would result in capital costs that the school district cannot meet within three years when utilizing all funds available from local, state, or federal sources.

(4) The Superintendent may not recognize a school with less than six grades as a necessarily existent small school if it is feasible in terms of school plant to consolidate the school into a larger school, which, if consolidated, would meet the criteria of Subsections (1) and (2).

(5) If the Superintendent determines that a secondary complex or attendance area meets the criteria of necessarily existent when analyzed on a 7-12 grade basis, the Superintendent shall not invalidate the qualifying status as a result of a reorganization pattern by a district.

(6)(a) In accordance with Subsection 53G-6-305(3)(b)(ii), the Superintendent shall use NESS Program funds to cover out-of-state tuition reimbursements under Rule R277-421.

(b) The Superintendent shall distribute any funding balance in the NESS Program in the current year with:

(i) a minimum of 95% of the distribution based on the number of WPU funds generated for eligible necessarily existent small schools; and

(ii) the remaining funds distributed using a formula that considers the tax effort of a local board of education.

(7)(a) A school district shall utilize additional WPU funds allocated for necessarily existent small schools for programs at the school for which the units were allocated.

(b) Funds allocated under this rule shall supplement and not supplant other funds allocated to schools by the local board of education.

(8) The Superintendent shall classify a school after consultation with the district and in accordance with applicable state statutes and Board rules.

(9) The Superintendent shall allocate funds to schools with isolating conditions based on legislative appropriations.

(10) The Superintendent shall distribute small district base funding in accordance with state law.

(11) If a school district receives small district base funding, the funding is not subject to the restrictions of Subsection (7).

R277-445-4. Application Procedures.

(1) Beginning in FY2020, a school district shall apply for funding from the NESS program for all eligible schools, including schools with isolating conditions, on a form approved by the Superintendent by April 2.

(2) A school district shall certify that the information in the district's NESS program application remains accurate in each ensuing fiscal year on a form provided by the Superintendent by April 2.

(3) The Superintendent shall review no less than 20% of the certifications submitted under Subsection (2) on a rotating basis annually to ensure compliance with this Rule R277-445.

R277. Education, Administration.

R277-472. Charter School Student Enrollment and Transfers and School District Capacity Information.

R277-472-1. Authority and Purpose.

(1). This rule is authorized by:

(a) Utah Constitution Article X, Section 3, which vests general control and supervision over public education in the Board;

(b) Subsection 53E-3-401(4), which allows the Board to make rules to execute the Board's duties and responsibilities under the Utah Constitution and state law; and

(c) Subsection 53G-6-503(2), which directs the Board to make rules for a student transferring between a charter school and the student's boundary school within the student's district of residence and enrolling and withdrawing from charter schools.

(2) The purpose of this rule is to:

(a) provide procedures for a student transferring between a charter school and the student's boundary school within the student's district of residence;

(b) define capacity in district schools to allow for transfers into district schools from charter schools; and

(c) require LEAs to provide notice to parents and students of schools that have space available.

R277-472-2. Definitions.

(1)(a) "Below capacity" means the grade level or program is less than 100 percent of the district, school, or grade level average.

(b) A special program is "below capacity" or available for transfer students from charter schools if the number of assigned students is less than the designated number of students determined by the school district.

(c) An entire elementary or secondary school is "below capacity" if the district determines that the average class size, using calculations of classes and courses in this Rule R277-472, is less than 100 percent of the district elementary or secondary average class size.

(2) "Elementary class size" means the number of students with a primary assignment to a specific teacher.

(a) An extended day class in which a portion of the class arrives early and the other portion stays late shall be counted as one class.

(b) "Elementary class size" shall include all special education students who participate in all or part of the school day excluding those students assigned to a special class.

(3) "Full time equivalent" or "FTE" means the ratio of the contract time worked by an educator compared to the LEA's definition of contract time worked by a full-time employee in the same position.

(4) "Secondary class size" means the secondary school's calculation for each language arts, mathematics, and science course that is typically taught multiple times in the school day, such as 8th grade English, Secondary Math 1, or Earth Systems.

(5)(a) "Special class" means a placement where a student is placed in a classroom and receives specialized instruction and related services, if required, with other students with disabilities.

(b) "Special class" includes students who receive special education and related services outside the regular general education classroom for more than 60% of the school day.

R277-472-3. Elementary Class Size Calculations.

(1) Each school district, or school as determined by the school district, shall calculate an average elementary class size for each grade level.

(2) A school shall calculate average elementary class size by dividing the total number of students in a given grade by the number of full time licensed teachers assigned to that grade.

(3) A school may not count students assigned to multiple grade level classes, nor the school's respectively assigned teachers, in determining average elementary class size for a grade level.

(4) A school shall calculate elementary classes that group students in programs other than by grade level, such as gifted and talented, or programs for students learning English, as a class for determining average elementary class size if students participate for the entire instructional day.

(5) If a school counts students that participate in special programs for part of the school day for determining average elementary class size, the school shall count the students as part of their age-appropriate grade level, together with respective teachers, for purposes of the calculation.

(6) If multiple classes of special programs exist, a school shall determine an average elementary class size for special programs consistent with state, federal and program standards.

(7) Each school district or school shall calculate a school-wide average class size by dividing the total full-time teachers assigned to direct teaching situations by the total number of students receiving instruction.

(8) A school may not include a student or teacher in a special class in calculating school-wide average class size, but shall include all other special education students and teachers.

R277-472-4. Secondary Class Size Calculations.

(1) Each school district, or secondary school as determined by the district, shall calculate an average secondary class size for each language arts, mathematics and science course that is taught multiple times during a typical school day by dividing the

total number of full time teachers assigned to direct teaching situations by the total number of students enrolled.

(2) A school may not include a student or teacher in a special class when calculating average secondary class size, but shall include all other special education students in the calculation.

(3) A school district shall calculate the district-wide average class size for:

(a) each grade level;

(b) each elementary program that enrolls students across grade levels; and

(c) each language arts, mathematics, and science course.

(4) A school district shall calculate district-wide average class size by dividing the total number of FTEs assigned to direct teaching situations by the total number of fully enrolled students.

(5) A school district shall derive all calculations required by this rule using October 1 enrollment and employment data.

(6)(a) In a school district with only one elementary or secondary school, or only one class of any subject or grade level, the school district may calculate the average class size for an entire school or the entire school district by averaging all the classes in the school or the school district.

(b) The school district may then determine that any class size less than the school district or school average class size is below capacity.

R277-472-5. School District School Capacity Information.

(1) A school district shall provide and post the following information to facilitate transfer of students on school district or school websites:

(a) elementary schools within the school district that are below capacity and available for transfer students;

(b) grade levels and special programs within elementary schools that are below capacity and available for transfer students;

(c) secondary schools that are below capacity and available for transfer students based on calculated capacity of language arts, science and mathematics; and

(d) special programs within secondary schools that are below capacity and available for transfer students.

(2) Below capacity standards for individual schools, grade levels, courses or programs do not apply if a school has documentation that the school community council in a public meeting has designated more than one-half of a school's school LAND trust annual allotment to reduce class size in a specific school, grade level, program or course.

R277-472-6. Charter School Website Requirements.

(1) Each charter school shall post on its website:

(a) admission forms;

(b) student transfer forms;

(c) forms for assurance and parent signature that a student has been admitted to only one public school; and

(d) all information required by Section R277-551-5.

R277-472-7. Enrollment of Transferring Charter School Students in District Schools.

(1) If a charter school student who is a resident of a school district submits required enrollment information for the upcoming school year before June 30, the school district shall enroll the student in the student's boundary school for the upcoming school year.

(2) Notwithstanding Subsection (1), a school district shall enroll a resident student leaving a charter school, which has been closed, in the student's boundary school.

(3) A district may limit resident students who are transferring from a charter school to a district school who submit required enrollment information after June 30 for the upcoming school year to schools, grade levels, programs and courses that have space available or are below capacity at the district schools.

(4) A school district may not require enrollment procedures or forms from students moving from a charter school to a district school that differ in any way from enrollment procedures or forms required for district students if the charter school students are leaving a charter school after the final grade level offered by the charter school.

(5) If a school changes the location of services for a student with disabilities, the new location may only be considered a change of placement as determined by the student's IEP and consistent with the IDEA.

(6) A school may deny a student enrollment in a public school if the student leaves a public school with disciplinary procedures pending at the previous public school until previous allegations have been resolved.

(7) A charter school and district school shall notify each other of student enrollment consistent with Subsection 53G-6-503(4).

R277-479-3. Charter School Special Education Add-On Funding.

(1) For existing charter schools, the Superintendent shall calculate the foundation based on the average ADM of students with disabilities for the previous five years.

(2)(a) For new charter schools, the Superintendent shall calculate the foundation based on the average special education ADM for the number of years the new charter school has been in operation beyond the first year, until the charter school completes its fourth year of operation.

(b) In its first operational year, a new charter school shall receive special education funding based on estimated enrollment projections made by the CDC and approved by the Superintendent for legislative projections.

(c) For a new charter school, the estimate of students with disabilities shall be 10% of the estimated enrollment.

(3) The foundation is the minimum amount a charter school may receive for special education add-on funding.

(4)(a) The Superintendent shall apply a positive growth adjustment to a charter school's foundation for weighted growth.

(d) The Superintendent shall determine growth WPU as set forth in Subsection 53F-2-307(7)(e).

(e) The Superintendent may not impose a funding cap based on the charter prevalence rate because a charter school is designed and authorized specifically to serve students with disabilities.

(f) When there is no growth, either because a charter school is new or because the same number of students are enrolled, the Superintendent may not apply a positive growth adjustment.

(5)(a) The Superintendent shall apply a negative growth adjustment to a charter school's base for decline in special education ADM.

(b) The negative growth adjustment is the base multiplied by the percentage of enrollment decline.

(c) The Superintendent shall subtract the result calculated under Subsection (5)(b) from the base to determine WPU.

(d) When there is no decline in a charter school's enrollment of students with disabilities, either because the charter school is new or because the same number of students are enrolled, the Superintendent may not apply a negative growth adjustment to the charter school's allotment.

(e) If a negative growth adjustment brings the WPU below the foundation, the charter school shall receive the foundation WPU.

(6)(a) If an authorizer approves a significant expansion for a charter school, during the first and second years of expansion, the Superintendent shall multiply the projected increase in enrollment by the most recent prevalence rate to arrive at the WPU supplement for the charter school.

(b) After the first and second years of a charter school's expansion, the special education formula provided in this Section R277-479-3 shall account for the expansion.

(c) If an authorizer approves a significant expansion for a charter school during the third year of operation and beyond, the Superintendent shall calculate a significant expansion adjustment by estimating the number of students with disabilities to be 10% of the projected enrollment, and provide funding for these anticipated students.

(d)(i) The Superintendent shall base the estimate under Subsection (6)(c) on a projected expansion adjustment calculated by the Superintendent accounting for expansion information provided by a charter school's authorizer.

(ii) The Superintendent shall multiply the projection by the prevalence rate of students with disabilities for the charter school for the most recent year calculated in the add-on formula.

(iii) The Superintendent shall allocate the resulting significant expansion adjustment WPU as an expansion supplement to the charter school's add-on WPU.

(7) Notwithstanding this Section R277-479-3, if a new charter school or significant expansion identifies a purpose and target population in its application focusing on students with disabilities, the Superintendent shall estimate the number of students with disabilities expected to enroll in consultation with the authorizer and the school.
