Graduation Rate Highlights

- Utah's state graduation rate for the 2022 cohort is 88.2%.
- Five of the nine reported student groups increased their graduation rate from 2021.
- A total of 45432 students graduated from Utah's high schools.
- Utah's graduation rate has increased from 88.1% in 2021 to 88.2% in 2022.

Methods

The Every Student Succeeds Act (ESSA) requires the state to calculate a four-year cohort rate. Utah implemented a federally defined cohort graduation rate in 2008. The graduation rate for the 2022 cohort includes all students who started ninth grade in the 2018-19 school year, students with severe cognitive disabilities who have had their cohort reassigned to 2022, and students who transferred into the Utah public education system after ninth grade. Students in the cohort have four possible final outcomes:

- Graduate
- Continuing Student
- Other Completer
- Dropout

ADA Compliant: 12/1/2022

The "graduate" category includes students who have earned a basic high school diploma, Alternate Diploma (for students with a significant cognitive disability as defined in Board Rule R277-705-2), or an adult education high school diploma by September 30 following the end of their cohort school year. "Continuing students" are students who have been allowed to continue attending school beyond their senior year, or those who transferred to higher education or the Utah System of Technological Colleges (formerly UCAT) without first receiving a high school diploma. Students considered "other completers" include those who completed the General Education Development test (GED) or a certificate of completion; or are a student with a disability who participated in the Utah Alternate Assessment (UAA). The "dropout" category includes students who have not completed graduation requirements, such as those who have withdrawn, dropped out, or have been expelled.

2022 Graduation Rates

The graduation rate for the 2022 cohort is 88.2%. This is a 0.13% increase from the 2021 cohort's graduation rate of 88.1%. The Asian student group had the highest rate for 2022 with 91.7% meeting graduation requirements. The African American and Black student group had the largest gain in graduation rate from 2021 to 2022 by going from 76.84% of students graduating to 79.37%. Year-to-year changes for all reported student groups can be seen in Table 1. For an overview on how graduation rates are calculated, refer to Appendix A.

Historical Graduation and Dropout Rates

At the state level, graduation and dropout rates have improved over the last seven years. Graduation rates have steadily increased over the past 7 years, from 84.3% in 2015 to 88.2% in 2022. Over the same time, dropout rates have decreased from 13.2% to 9.9%.

Figure 1. Historical Graduation and Dropout Rates

Similarly, graduation rates have increased for most student groups over the past seven years. Graduation rates for the Race/Ethnicity student groups have remained relatively consistent or increased over the years, with decreases typically being small. The Hispanic/Latino student group is the only student group has had an increase in their graduation rate each year from 2015 through 2022.The African American and Black student group has seen the greatest improvement over this time; improving by over eleven percentage points from 2015 through 2022. Asian, American Indian, and Pacific Islander student groups were the only Race/Ethnicity groups that saw a decrease in their graduation rate from 2021.

For other student groups, English Learners and the Students with Disabilities groups have improved at least seven percentage points since 2015. The Economically Disadvantaged student group is the only student group in Figure 3 that saw a decrease in their graduation rate from 2021.

2022 Dropout Rates

The state dropout rate for the 2022 cohort is 9.9%. This is down .08% from the dropout rate for the 2021 cohort. The Asian student group had the lowest dropout rate for 2022 at 7.4%. Even though the Asian student group increased their dropout rate from 2021, they still performed better than the overall state rate. The English Learner student group had the highest dropout rate for 2022 at 21.62%. This is an increase of 0.25% from 2021. The Pacific Islander student group saw the greatest year to year change with a 3.94% increase in their dropout rate from 2021.

Graduation Outcomes

Tables 5 and 6 show the graduation rates for cohort years 2020, 2021, and 2022, as well as the dropout rate for 2022. The rates are reported for each Local Education Agency (LEA) and school. Table 4 shows districts and district schools, and Table 5 show charter agencies and charter schools.

In compliance with FERPA regulations and student data privacy best practices, data for groups with fewer than eleven students are masked with "N<=10".
