Mathematics

Recommended Math sequence:

7th grade - 7th Grade Mathematics

8th grade - 8th Grade Mathematics

*9th grade - Secondary Mathematics I

*10th Grade - Secondary Mathematics II

*11th Grade - Secondary Mathematics

III

*Supplemental Secondary Math may be taken in conjunction with the math courses listed above in grades 9–12. This course provides an opportunity for additional supplemental instruction. This course may not replace the course(s) above.

Course Name	Grade	Course Code	Summative Assessment	Description	Activation or Deactivation
Mathematics 3—Special Ed	3	07-01- 88-23- 004	MA03	3rd Grade mathematics taught in an elementary setting for students with disabilities.	
Mathematics 4—Special Ed	4	07-01- 88-23- 005	MA04	4th Grade mathematics taught in an elementary setting for students with disabilities.	
Mathematics 5—Special Ed	5	07-01- 88-23- 006	MA05	5th Grade mathematics taught in an elementary setting for students with disabilities.	
Mathematics 6—Special Ed	6	07-01- 00-23- 007	MA06	6th Grade mathematics taught in a secondary setting for students with disabilities.	
7th Grade Mathematics—Special Ed	7	07-08- 00-23-070	MA07	In 7th Grade Mathematics students with disabilities will focus on developing understanding of and applying proportional relationships; developing understanding of operations with rational numbers and working with expressions and linear equations; solving problems involving scale drawings and informal geometric constructions, and working with two- and three- dimensional shapes to solve problems involving area, surface area, and volume; and drawing inferences about populations based on samples.

8th Grade Mathematics—Special Ed	8	07-08- 00-23- 080	MA08	In 8th Grade Mathematics students with disabilities will focus on formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; grasping the concept of a function and using functions to describe quantitative relationships; and analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.	
Secondary Mathematics I—Special Ed	8–10	07-08- 00-23- 090	(8) MA1 (9-10) Utah Aspire Plus determined by student’s grade.	Students with disabilities in Secondary Mathematics I will deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomenon, and in part by applying linear models to data that exhibit a linear trend. Students will use properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge. Algebraic and geometric ideas are tied together. Students will experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.	
Secondary Mathematics II—Special Ed	9–11	07-08-00-23-100	(9-10) Utah Aspire Plus determined by student’s grade. (11) ACT determined by student’s grade.	Students with disabilities in Secondary Mathematics II will focus on quadratic expressions, equations, and functions; extend the set of rational numbers to the set of complex numbers; link probability and data through conditional probability and counting methods; study similarity and right triangle trigonometry; and study circles with their quadratic algebraic representations.

Secondary Mathematics III—Special Ed	10–12	07-08-00-23-110	(9-10) Utah Aspire Plus determined by student's grade. (11) ACT determined by student's grade.	Students with disabilities in Secondary Mathematics III will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data; expand their repertoire of functions to include polynomial, rational, and radical functions; expand their study of trigonometry to include general triangles; and use functions and geometry to create models and solve contextual problems.

Supplemental Secondary Math – Special Ed	9-12	07-07-00-23-005	None	This course is to provide supplemental math instruction to support a core mathematics course for students with disabilities. It should not be taught as a stand-alone course. The standards of the course are those of the associated core course.	
Algebra 2 (9-12) – Special Ed	9-12	07-02-00-23-020	None	Students will conceptualize, analyze, and identify relationships among functions by building on concepts learned in Algebra 1 and Geometry and by extending linear algebra and coordinate geometry to other functions and systems of equations. For students with disabilities.
