

D. FUNCTION CODES

Key: M – Minimum Level of Reporting Required by USBE

Function codes are used to describe the activity for which a service or commodity is acquired and fit within the following structure:

- USBE has defined the minimum level of reporting required by LEAs. Throughout the various sections of the Char of Accounts, this is identified by the “M” at the left of the code to indicate ‘Minimum’.
- USBE has defined which codes are to be considered as headers as indicated by, “(Header Only – Do Not Use” immediately following the code title. LEAs are not allowed to report amounts in header codes.
- All numbers not defined in the USBE chart of accounts is, by default, available to be used by LEAs if they are mapped appropriately upon reporting.
- When coding transactions that, if coded exactly, could span multiple locations, state programs, functions, LEAs are only required to do so if the amount exceeds 20% of the total for any given dimension. When applying this leeway to salaries/benefits, assigned responsibilities should be used to evaluate if the amount exceeds the threshold as opposed to actual time.
