

Four Keys for Successful Implementation

As Utah's educators work to achieve the expectations outlined in Board Rule R277-328 Educational Equity for Schools, four keys to successful implementation have been identified.

Engage in Parental Transparency: Be transparent with parents on the topics/content you will be teaching. This could be accomplished through a combination of actions such as providing access to disclosure statements, posting content on Canvas, sending emails to families when a particular discussion comes up, and encouraging them to speak and engage with their child. The overall objective is open communication.

Ensure Content is Age Appropriate: Consider the age and maturity of the students you work with and whether particular topics are age and developmentally appropriate.

Preview all Materials Before Use with Students: Use instructional materials that have been fully vetted (e.g., watch the video, read the text fully) prior to classroom use. This includes reviewing links.

Remain Unbiased in the Classroom: Remain unbiased in classroom discussions, materials, and instruction.
