Board Member Message

Member Spencer Stokes welcomed the Board. He shared that he has reviewed over the past week lessons he has learned while being on the Board and things he will miss—particularly the school art. He has learned that the teachers, principals, superintendents and board staff have spent their lives studying about public education and have been the boots on the ground, and as much as you think you know about public education, they know a vast amount more. He closed with a statement that Alan Simpson made as a speaker in President George H.W. Bush’s funeral yesterday, “Humor is the universal solvent against the abrasive elements of a life,” and expressed that no truer words could be spoken.

Acknowledgment of Student Art Work

Educational Specialist Cathy Jensen informed about the art work hanging in the Board room by students at River Heights Elementary and Lewiston Elementary.

Education Highlight – West High School Debate Club

Diana Suddreth, Director of Teaching and Learning, welcomed students from West High School that recently participated in a national debate championship in New York City.

Moses Baca, the West High Debate Coach, was invited to speak, and he acknowledged the West High Principal and Vice Principal in the audience. He informed that at West High approximately 100 students have elected to take a debate class this year. Last spring West High debate won the state championship for the first time in the school’s history and qualified four debaters for the Tournament of Champions—a tournament held at the end of the season which only invites the most successful teams that compete at the national level, a status more typically earned by students attending private schools. Most importantly, the debaters are developing skills that help them succeed in the classroom and beyond.
Several West High students shared their experiences with speech and debate and listed the following benefits of participating and skills developed in these programs: use of rhetoric; synthesis and acting skills to communicate their beliefs in a form of art; association with a broad community of teachers and peers; introduction to academia in an empowering and inspiring way; finding ways to make a difference in the world; inspiration to become a lawmaker; public speaking; critical thinking; better and more effective note-taking; learning about political environments; building communities in a different setting; unifying students; ability to portray and strengthen their beliefs; advantage in college applications; establishes great work ethic; and becoming a better student.

Board members asked questions and applauded the students.

Public Comment

Jackie Ball, mother of a hard-of-hearing son – shared that her son attended the Utah Schools for the Deaf and the Blind (USDB) for two years, which helped him flourish, and is now in mainstream school. He has two devices that go on his head and has no barriers to communication because he has done spoken language. She distributed information on Listening and Spoken Language (LSL) programs, and stated that deaf students need extensive LSL techniques. She indicated that she is all about parental choice, but voiced that there are some issues with the spoken language program at the Utah School for the Deaf.

Jalayne Engberg – was employed by Alpine School District for over 30 years, 27 as teacher of the blind and dual impaired. She expressed her concerns about a new law where USDB wants to provide free services to all school districts for deaf and blind students and the potential problems that could arise. She is worried that there is already a shortage of teachers of the blind and visually impaired and is concerned that many teachers will not change districts to work at USDB because of retirement. This situation could cause a shortage of teachers for the blind. She voiced that sometimes the needs of teachers of the blind working in school districts have not been reflected. She also indicated sometimes those students aren’t receiving Braille.
Vince Newmeyer – voiced that as science is being taught in the schools there is a certain element of arbitrary data that isn’t necessarily connected with observable, measurable science; it’s more related to a philosophy or dogma. He shared his shock when he was on the science standards review committee and heard an educator say that there is no evidence challenging Darwinian evolution—our educators aren’t even aware of some of the fundamental problems with the science that they teach as absolute truth. This is what’s happening in the Next Generation Science Standards and the Board’s new science standards.

Kat Martinez, Murray School District early childhood educator - asked the Board to work with legislature to eliminate the way schools are graded. It is an inaccurate way to score schools and provide resources to them.

Outgoing Board Members Kathleen Riebe, Spencer Stokes, and Joel Wright were recognized by the Board, and were given the traditional bells. Chair Huntsman mentioned that Member Terryl Warner couldn’t be here today but will be recognized at a future time.

Other Board members voiced that the funding is needed to better communicate the Board’s decisions and direction and avoid miscommunication. It was noted that the Discretionary Fund is for internal use and wouldn’t be pushed out to schools.

Deputy Superintendent Scott Jones explained that of the $596,653 requested, $100,000 would go to a high-quality public relations firm. The rest would available for research and development in the communications area.

**MOTION** from Committee that the Board approve the CTE course standards as submitted.

Motion to amend was made by Member Ellis and seconded that the standards be sent out for a 90-day comment period as part of the process.
Member Ellis expressed concern with the proposed process because it isn’t consistent with other standards that have a public review.

CTE Director Thalea Longhurst was invited to provide input. She reported that if the standards that are currently calendared for review are subject to a 90-day review, the process would be delayed so the work would not go into effect for another year, which could make the standards out of date. Director Longhurst informed that a process and tool is provided on an ongoing basis by which industry members can validate and provide feedback on the standards.

Member Ellis indicated she would be amenable to not making the change now as long as adjustments to the timeline to allow for more public input would be considered moving forward. Without objection, the motion was withdrawn.

School Leadership Working Group Recommendations

Assistant Superintendent Darin Nielsen introduced Aaron Popham and Valerie Bergera from the School Leadership Working Group, as well as Board Members Riebe and Hansen. Assistant Superintendent Nielsen made a presentation on the work of the group and reviewed the following recommendations from the Group.

- Develop, adapt, or adopt school leader performance assessment that will allow candidates for the principalship to demonstrate their leadership knowledge and skills prior to receiving a credential/license.
- Seek funding to provide scholarships like the T.H. Bell Scholarship that would provide scholarship relief to potential administrators.
- Direct the Superintendent to create a list of resources that would help potential school principal candidates identify experiences that will prepare them for school leadership.
- Require preparation programs to have a confidential recommendation form, with professional requisite skills being rated.
- Require a weighted application for admission into preparation programs that rewards applicants for prior leadership experiences.
- Require preparation programs to provide for meaningful experiences across the entire preparation program with a culminating experience.
- Include in principal preparation programs coursework and experiences related to the implementation of multi-tiered systems of support.
- Seek funding to establish a school leadership development grant to assist LEAs.
- Direct the Superintendent to create a model principal mentoring framework.
- Direct USBE staff to facilitate school principal mentor training to LEA principal supervisors.
- Direct staff to create a business case regarding the details related to the fiscal note associated with these requests.
- Utilize the Principal Support Network to provide all school principals opportunities to collaborate (cross-district) with each other.
- Direct the re-licensure requirement associated for educators with administrative endorsements to become more rigorous.
- Provide a menu of skill-specific, evidence-based professional learning experiences to school principals.

- Create a depository of school principal professional learning resources.

  Superintendent Nielsen acknowledged that the recommendations do not address contingencies if full funding for the plan isn’t provided. He indicated that approval of the recommendations would provide direction to staff, and at that point, business cases for funding would be prepared.

  **MOTION** was made by Member B. Cummins and seconded that the Board accept the School Leadership Work Group recommendations.

  Concerns were expressed about the expectation for school leaders to provide responses to mental health issues for which they are not trained. It was acknowledged that greater support is needed in this area.

  Motion carried unanimously; Members Graviet, Stokes and Warner absent. [For additional details, see General Exhibit No. 18-460.]

**School Fees Task Force Report/Recommendations**

Chair Huntsman gave an overview of the work of the Task Force accomplished in twelve, four-hour sessions. The following recommendations from the group were provided:

- The Task Force recommends the Board request changes to statute and rule in order to give the Board the authority to suspend an LEA’s right to charge fees.

- The Task Force recommends the Board seek legislative changes: 1) to update the definition of “textbook” in statute to be consistent with Board rule; 2) to not allow schools to charge for textbooks unless for concurrent enrollment or Advanced Placement (AP); and 3) to require that textbook fees are waivable.

- The Task Force recommends the Board seek legislation to create a funding program to support equalization of fee waivers among schools within a district.
• The Task Force recommends the Board further define provisions related to school uniforms, including prohibiting elementary schools from having prescriptive uniforms, and if necessary, seek changes to statute or rule.

• The Task Force recommends the Board approve its proposed amendments to R277-407 School Fees.

**MOTION** was made by Member Lear and seconded that the Board direct staff to request changes to rule or statute in order to give the USBE the authority to suspend an LEA’s right to charge fees.

There was some discussion whether “rule or statute” should be “rule and/or statute.” Deputy Superintendent Stallings indicated if the provision is in statute it wouldn't need to be made in rule, but would probably be referenced, and that “and/or” is assumed.

Motion carried; Member Graviet absent.

**MOTION** was made by Member Lear and seconded that staff seek legislative changes to update the definition of textbook in statute; amend statute to prohibit schools from charging fees for textbooks, except for textbooks for concurrent enrollment or AP courses; and if necessary, include a provision that fees for concurrent enrollment and AP course textbooks would be waivable.

Motion carried; Member Graviet absent.

**MOTION** was made by Member Lear and seconded that staff seek legislation to create a funding program to support equalization of fee waivers among schools within a district.

Members questioned whether districts should already be doing this, what the definition of equalization is, and if this addresses small LEAs. It was noted that some districts have far greater disparity than others and some have more outside resources than others.

**MOTION TO AMEND** was made by Member Belnap and seconded that the wording be changed to: “Staff seek legislation to create a funding program to offset the impact of revenue lost from fee waivers.”

Motion to amend carried.

Motion as amended carried, with Members B. Cummins and L. Cummins opposed; Member Graviet absent.
**MOTION** was made by Member Lear and seconded that staff seek changes to legislation to prohibit elementary schools from having prescriptive school uniforms.

Motion carried; Member Neilson absent.

**MOTION** was made by Member Ellis that staff further define provisions related to uniforms to go to a Board committee for discussion, and if necessary, look into a statute or rule change.

Motion carried, with Member Lear opposed; Member Neilson absent.

**MOTION** was made by Member Lear and seconded that the Board direct Board Leadership to send R277-407 to a standing committee for review and recommendations.

Motion carried; Member Neilson absent.

Vice Chair Cummins thanked the Task Force for its work.

**School Turnaround and Leadership Development Act Overview**

Educational Specialists Max Lang and Leslie Evans-Jones presented information about the three cohorts in the School Turnaround program.

Board member concerns were expressed that schools may be identified for turnaround that may not need to be in the program. [For additional details, see General Exhibit No. 18-462.]

**FY20 Budget Priorities**

Deputy Superintendent Scott Jones reported that the Governor’s budget priorities for the upcoming legislative session were made public this morning. USBE staff will provide a side-by-side comparison with the USBE budget priorities for public education. Revenue estimates were also provided to the Board.

Superintendent Jones reviewed three requests from outside entities for the Board’s support of funding: 1) Beverley Taylor Sorenson Arts Learning Program; 2) Board of Regents -
Statewide College Advisor Program; 3) Utah Charter Network - administrative costs for charter schools.

**MOTION** was made by Member Stokes and seconded that the Board add support for the Beverley Taylor Sorenson Arts Learning Program and the Regents College Advisor Program requests to its priorities list.

Motion failed, with Members B. Cummins, Lear, Riebe and Stokes in favor and all others opposed.

The motion was divided and readdressed.

Motion to add the Beverley Taylor Sorenson Arts Learning Program carried; Member Neilson absent.

Motion to add the Regents College Advisor Program was discussed.

Concerns were voiced that money would be coming out of K-12 funding to go to Higher Education. It was noted that Higher Education would be using the money to benefit K-12 students.

Motion carried, with Members Cannon, B. Cummins, Graviet, Huntsman, Lear, Riebe, Stokes, Warner and Wright in favor, and Members Belnap, Boulter, L. Cummins, Ellis and Hansen opposed; Member Neilson absent.

**MOTION** was made by Member Wright and seconded that the Board approve adding the request for administrative money for charter schools to its priorities list.

**MOTION** was made by Member B. Cummins and seconded that this item be postponed until the next meeting of the Board.

Motion to postpone carried unanimously.

**MOTION** was made by Member Lear and seconded that the Board direct staff to work with legislators on a bill concerning provisions for military families to enroll in charter school lotteries outside of the timelines.

Motion carried unanimously; Member Neilson absent.

**MOTION** was made by Member Lear and seconded that the Board direct staff to work with the legislators to change statute to clarify when a second school district is required to provide services to a student who moves to a second district outside of the school district where the student’s parent resides.

Motion carried unanimously; Member Neilson absent.

School Report Card Update

Assistant Superintendent Darin Nielsen gave the presentation, School Report Card 2018 Indicator Cut Scores. The report card is scheduled for release to local education agencies on December 10 and to the public on January 3.

Superintendent Nielsen reminded that in October the Board made the decision to not issue school grades or ratings for the 2018-19 school year; however, there needs to be some way to explain the data. The Board then approved the use of some categories and a meter graphic to explain the information. Those categories and the graphic were reviewed.

Board member concerns were expressed that the ratings aren’t easily understood and definitions of High/Typical/Low aren’t clear. Staff suggested that since the word “typical” is used in two different contexts (at the performance level and the indicator level), in the High/Typical/Low context, the word “typical” could be substituted with “average.” Deputy
Superintendent Jones suggested that the change could be made by IT in Phase 2, but most likely not by the January 3 release date.

**Educator Misconduct Audit Review and Related UPPAC Policies and Work**

Ben Rasmussen, Director of Law and Professional Practices, made the presentation, *Educator Misconduct Report Audit by State Auditor’s Office*, and reviewed the audit recommendations.

Mr. Rasmussen reported on work that is in process in response to the audit: opportunities to train LEAs are being actively pursued; all cases in the three districts audited have been reviewed with the district personnel teams, and those cases will be reviewed by UPPAC to determine if there are cases that need to be opened; presentations have been made to the Utah School Superintendents Association and district human resource directors, and a presentation to the charter directors is scheduled, as well as to individual LEAs.

In addition, the Board UPPAC Process Review Task Force is in the process of being formed and will most likely will look at the audit recommendations. Board members requested that the scope of work approved for the Task Force be reviewed to ensure that the audit recommendations are included.

Board member comments included the following: Teachers should receive training every year; past cases should be reviewed in light of the rules in place at the time; perhaps giving an amnesty period would provide an incentive to report.

Mr. Rasmussen indicated he will send the schedule of UPPAC meetings to Board members.

The intent is that the Board will vote on the strategies in its January meeting.
