

A Trip to the Store

We ran out of milk and apples. My dad says	10
food is a need. We need food to live. I tell him I	23
need candy too. He says that candy is a want. We	34
do not need candy to live.	40
My dad and I go to the grocery store. We see	51
many kinds of apples on sale. We choose four	60
Granny Smith apples. We put them in our	68
shopping cart. We also put milk in our cart. My	78
dad pays for the apples and milk. All together,	87
they cost seven dollars and 30 cents.	94
