

THE ULTIMATE LEADERSHIP EXPERIENCE

Mission: To promote personal growth and leadership development through Family and Consumer Sciences education.

- Family, Career and Community Leaders of America (FCCLA) is a nonprofit national Career and Technical Student Organization (CTSO) for young men and women in Family and Consumer Sciences education, in public and private school grades 9-12.
- Since 1945, FCCLA members have been making a difference in their families, careers, and communities by addressing important personal, work and societal issues through Family and Consumer Sciences education.
- Involvement in FCCLA offers members the opportunity to expand their leadership potential and develop the skills for life-planning, goal setting, problem solving, decision making, and interpersonal communication necessary in the home and workplace.
- FCCLA chapter projects focus on a variety of youth concerns, including teen pregnancy, parenting, family relationships, substance abuse, peer pressure, the environment, nutrition and fitness, teen violence, and career exploration.

GOALS

Utah FCCLA Chapter Goals 2021-2022:

1. Complete the national program Career Connection, focusing on Family and Consumer Science careers.
2. Host an activity to increase awareness of FCCLA in your school.
3. Create promotional materials to showcase your FCCLA chapter.
4. Work with another group in your school to do a service project to make your school or community beUTAHful!

SERVICE

As FCCLA members work together they become aware of themselves, their responsibilities as citizens, and their roles as future community leaders. This year, Utah FCCLA members will be selling socks and raising funds for "We Help Two," a non-profit organization that provides legs for amputees around the world who cannot afford them.

TEACHING

As FCCLA members complete service projects within their school and community, and as they participate in competitive events, they demonstrate their ability to teach members of their families, schools, and communities. "I love being around these kids. They have so much energy and a love for learning. I want to continue in my pursuit of an education in teaching," said Kristen Hall.
