School Fees

SY2021 Performance Metrics
SY 2021 School Fees

• For SY 2021, LEAs charged $83 million
  • Growth of $4.4 million or 5.6%
  • 39 LEAs or 25% reported not charging school fees

• Of the 117 LEAs that charged school fees
  • 110 charged curricular fees
  • 70 charged co-curricular fees
  • 94 charged extracurricular fees
The total Curricular and Co-Curricular equal $54 million or 65% of the total charged fees.

This is the number given to Lexi Cunningham, Utah School Superintendent Association and the Utah School Board Association, for the Legislative Business Case to ask legislatures to fund curricular and co-curricular school fees.

Lexi Cunningham
Executive Director, USSA
Associate Executive Director, USBA
We want to emphasize here that R277-407 is about setting boundaries around school fees and the musts or regulations for school fee waivers. In the next slide we compare the average fees charged and fee waivers granted to the prior school year.

Overall waivers in SY2020 were $6.9 million or 9% compared to the SY2021 of $6.2 million or 7% of fees charged.
There is a saying “If you cannot measure it, you cannot improve it.”

The School Fee Performance reports look at estimated student participation in fee waivers so that they can be improved. The “estimated” student eligible count is the count of economically disadvantaged students for each LEA. This is not a one-to-one match of fee eligible students but it is the closest metric we have to measure, to see if we are improving. This chart shows that for SY2021, 49% of eligible students received waivers.

From the previous slide, the $6.2 million in fee waivers is a drop from 9% in 2020 to 7% in 2021 when comparing the number of fee waivers granted to charged fees.

We have heard, anecdotally, this is due to fees just not being collected rather than waived. The drop in students receiving waivers may be an anomaly of the pandemic. We will continue to look forward to future data to measure improvements.
### School Year 2021

Permanent Injunction page 27 (II.C.4) “If the programs which are at risk from fee waiver compliance requirements are of value, they are of value for all, not simply for those whose families have higher incomes”
• Links distributed through Qualtrics: noreply@qemailserver.com

• Links sent to:
  • Superintendent/Charter Director
  • Board Chair
  • School Principals

• Notification of distribution of links sent to:
  • School Fees Contact
  • Business Administrators

Please let IT departments know of the link through Qualtrics so that all emails that are distributed by Qualtrics will be allowed through.

The links will be distributed on Oct. 1, 2021 to Superintendents and Charter Directors, LEA Board Chairs, and all School Principals.

A notification will also be sent to the designated School Fees Contacts and Business Administrators.
Certificate of Compliance Updates - continued:

- Questions consolidated and revised based on compliance risk.
  - 15 questions or less:
    - Verification – Name and LEA/School is correct
    - Code & Rule Assurance
    - Attestation of Charging fees or not
    - Board Approval (1)
    - Fee Schedule (3)
    - Fee Waivers (2)
    - Fundraising & Donations (2)
    - Training (1)
    - Elementary (1)

The Certificate of Compliance questions were reviewed for risk. We took into consideration what is being looked at in our new Metrics & Risk ratings sent in March to each LEA. In addition, there have been changes to the CPA Financial Audits (State Compliance Guide) where LEAs will be providing documents to their CPA's.

We have therefore condensed and shorten the number of questions asked on the Certificate of Compliance. For those that charge school fees, there will be about 15 questions. The Certificate should take no more than 10-30 minutes to complete.
This is a sample screenshot of the email that will be sent out with the link.
This is a sample of the Certificate of Compliance and what will be seen when you click on the link. There is also a sample of the Certificate posted on our webpage:
www.schools.utah.gov/schoolfees
Statistical Report Updates

• Superintendents & Charter Directors:
  • Utah Code 53G-7-503(5) required that the Statistical Data for the 2020-2021 school year be submitted July 1, 2021. Do you have any updates to the Statistical Data submitted on the July 1st report? (If you select yes, you must provide a full resubmission of all the required data.)
  • Additional Required Documents:
    • Fee Schedule
    • Fee Policy
    • Fee Waiver Policy
  • Name files using LEA name, year, and document type (i.e.; LEAName_2022FeeSchedule)

Changes to the Statistical Report may be submitted if there is a material significance. This information may be used for LEA purposes, CPA audits.

This is a copy of the Data Definitions of the Statistical Report that are found on our website: www.schools.utah.gov/schoolfees
Utah Code 53G-7-505
(3)(a) The fee schedule shall include the following:
(i) a specific amount for each fee on the fee schedule;
(ii) if a student is responsible for multiple fees related to one activity, class, or program, a clear and easy to understand delineation of each fee and the fee total for each activity, class, or program;
(iii) the LEA’s fee waiver policy, including an easily understandable statement informing a parent that a student:
(A) may be eligible to have one or more fees waived; and
(B) may appeal the LEA’s decision if the LEA denies a request for a fee waiver; and
(iv) a corresponding spending plan for each fee.

53G-7-505 states what shall be included in a fee schedule.
1. Specific amount for each fee
2. Multiple fees related to one activity must have an easy to understand representation of the fees, including the fee total for the activity.
3. Fee Waiver policy and
4. Spend plan for each fee

Also keep in mind that R277-407-6 states that an LEA, school, or school employee may not charge a fee or request or require something of monetary value unless the fee has been set and approved by the LEA board
= < maximum amount set by the board
Included on approved fee schedule

R277-407-6 (2)(a) requires that the Fee Schedule be approved annually on or before April 1.

An LEA may amend a fee schedule but must follow the same approval process.

Multiple fees related to one activity. Clear and easy to understand delineation of each fee and the total for each activity, class or program.

The fee schedule is required to have the maximum amount per student per activity. Again multiple fees related to one activity must be clearly stated.

R277-407-6(4)(d) requires an LEA to include the total per student amount expected to be received through required group fundraising as part of the maximum fee amount for an activity.

R277-407-6(4)(c) states: “The amount of revenue raised by a student through an individual fundraiser shall be included as part of the maximum fee amount per student for the activity and maximum total aggregate fee amount per student.

The key concept is Clear and Easy to Understand, we can’t stress this enough.
Easily understandable statement to inform parents that...

- A student may be eligible to have one or more fees waived.
- May appeal the LEA’s decision if the LEA denies a request for a fee waiver

53G-7-503 also requires that the fee schedule includes an easily understandable statement to inform parents that
1. A Student may be eligible for fee waivers..
2. If the student is denied a fee waiver that they have the right to appeal.

We suggest providing a statement of where to obtain further INFORMATION such as a website or a contact.
Fee Schedule Examples

At the beginning of the school year, we receive several calls from parents concerning their students' fees. We have a couple of examples of the concerns we are receiving.
### Fee Schedule

#### Exercise #1

**Total** $84.00 $0.00 $84.00

Make it easy to understand and easy to find

---

### Specific Fee Courses, in addition to the course fees above, the following fees may be charged for specific items as applicable:

- Equipment Rental (for non-musical courses)

**Science Fee – Lab Matl ≠ Integrated Science**

**Studentbody Fee - Basic ≠ Basic Registration**

**Mixed Chorus, Digital Literacy, Business Marketing; can’t find on the fee schedule**

All fees must be easy to find on the fee schedule but also, it must be easy to find the fee schedule on the schools and LEA’s website. The Fee Schedule must be publicly available, which means that a student login isn’t required to access the fee schedule.

We’ve had issues finding fee schedules, we know what to look for and where to look so if we are having issues then we can only imagine the frustration of parents.
Fee Schedule

Exercise #2

Make it easy to understand
Receipt should correspond to fee schedule

The parent was concerned that the district was charging a fee. The spend plan states that the Student Activity Fee would supplement district funds. The invoice or receipt should match the fee schedule.
Corresponding spending plan

<table>
<thead>
<tr>

<td>up to $25.00</td>
<td>X</td>
</tr>
<tr>
<td>Transportation (bussing)</td>
<td>up to $25.00</td>
<td>Team Banquet (meals)</td>
</tr>
</tbody>
</table>

This is an excerpt from a fee schedule. You can see that they have listed the activity (Football), multiple fees (participation, spirit pack, team banquet), each fee also has the spend plan-list of anticipated expenditures. And the fee total (up to $360).

They’ve also included the funding sources: parent out-of-pocket and the items expected to be covered by required group fundraising. The parent can see that the fee for football would be $150 ($65 participation, $50 additional fee, $25 physical, $10 transportation) plus the requirement to participate in the group fundraiser.

The Fee Schedule also states that all fees are waivable.

The goal is full transparency.
This same LEA had a general information section that has the fee waiver statement. However, it is missing information concerning the appeal process should the student be denied a fee waiver.
5 MINUTE BREAK
Upcoming Requirements:

Part 1
Utah Code Annotated (UCA) 53G-7-602(3):

(a) Beginning with the 2022-23 school year, an LEA: (i) except as provided in Subsection (3)(a)(ii), may not sell textbooks or otherwise charge a fee for textbooks or the maintenance costs of school equipment; and
(ii) may only charge a fee for a textbook required for an Advanced Placement or, as described in Section 53E-10-302, a concurrent enrollment course.

(b) The LEA shall waive a fee described in Subsection (3)(a)(ii) in full or in part if a student qualifies for a waiver in accordance with Section 53G-7-504.

R277-407-12 Fees for Textbooks and Remediation. (1) Beginning with the 2022-23 school year, an LEA may not charge a fee for a textbook as provided in Section 53G-7-603, except for a textbook used for a concurrent enrollment or advanced placement course as described in Subsection (2).
(2)(a) An LEA may charge a fee for a textbook used for a concurrent enrollment or advanced placement.
(b) A fee for a textbook used for a concurrent enrollment or advanced placement course is fee waivable as described in Section R277-407-8.
UCA 53G-7-601(5):

(a) "Textbook" means instructional material necessary for participation in an activity, course, or program, regardless of the format of the material.

(b) "Textbook" includes:
   (i) a hardcopy book or printed pages of instructional material, including a consumable workbook; or
   (ii) computer hardware, software, or digital content.

(c) "Textbook" does not include instructional equipment or instructional supplies.

R277-407-2 (24) Textbook same definitions
Textbooks - continued

- **CANNOT CHARGE SCHOOL FEES**
  - Is it *Instructional material*? – goods and services being purchased for the individual student.
    - **Textbook** – cannot charge a fee. *Consumable or durable does not matter.*
  - **School Equipment** – durable item that belongs to the school.
    - Maintenance cost

School Equipment is not purchased for the individual student – cannot charge a fee. Nor can you charge fees for maintenance of school equipment per definition of section 602.
Textbooks - continued

- **Can CHARGE - School Fees & Fee Waiver***
  - **Instructional Equipment** – durable item that typically will belong to student.
  - **Instructional Supply** – consumable item that can be used for a course or activity.
  - **Classroom or Student Supply** – can be used for one or more course activity or at home. Commonly purchased and used.

R277-407-3(7) or UCA 53G-7-501(6)(b)(iv)(8) Included in fee definition.

</tbody>
</table>

*Cannot charge for in elementary school (UCA 53G-7-503(2))

- **Non-Waivable**
  - Personal discretionary charge or purchase
  - Insurance unless required
  - College credit
  - Personal consumable items: yearbook, class ring, letterman jacket
  - Designated not a fee by code: (R277-407-2(12))
  - Lost or damaged school equipment or supply (53G-7-501(6)(c))
  - School uniform
  - School lunch

UTAH STATE BOARD OF EDUCATION

We will go into more detail with each of these definitions. Some of these items are not Textbooks, you can charge fees and the fees are waivable. In addition, the Code specifically addresses non-waivable items.

**Instructional Supply R277-407(2)(9) or UCA 53G-7-601(3)**

R77-407(2)(a) "Student supplies" means items which are the personal property of a student which, although used in the instructional process, are also commonly purchased and used by persons not enrolled in the class or activity in question and have a high probability of regular use in other than school-sponsored activities.

(b)"Student supplies" include: (i)pencils; (ii)paper; (iii)notebooks; (iv)crayons; (v)scissors; (vi)basic clothing for healthy lifestyle classes; and (vii)similar personal or consumable items over which a student retains ownership. (c) "Student supplies" does not include items listed in Subsection (20)(b) if the requirement from the school for the student supply includes specific requirements such as brand, color, or a special imprint in order to create a uniform appearance not related to basic function.

R277-407-3(7)A school may require a secondary student to provide student supplies, subject to the provisions of Section R277-407-8 (Fee Waivers).
Rule Definitions vs Accounting Definitions

**Consumable = Supply**
- **Header 600 Supplies & Materials** - Amounts paid for items of an expendable nature that are consumed, worn out, or deteriorated in use;

**Durable = Equipment**
- **M 730 Equipment Code** - Items here that individually exceed the capitalization threshold established by the LEA. Examples include machinery such as lathes or drill presses or printing presses, etc., school buses, non-bus vehicles, furniture, technology-related equipment and technology infrastructure such as network equipment, servers, and software used for educational or administrative purposes, etc.

You should always record the accounting transaction using the financial chart of accounts for the object code. However, the account coding criteria does not determine if the items can be funded or purchased with student school fees.

The concept of consumable or durable is not the first consideration when determining if it can be funded by school fees or not. The first consideration - are the goods or service defined as textbook or instructional material?
Object Code 640+ – Books

- No School Fees can be charged for textbooks.

UCA 53G-7-601(S):

(a) "Textbook" means instructional material necessary for participation in an activity, course, or program, regardless of the format of the material.

(b) "Textbook" includes:
   (i) a hardcopy book or printed pages of instructional material, including a consumable workbook; or
   (ii) computer hardware, software, or digital content.

(c) "Textbook" does not include instructional equipment or instructional supplies.

600 Header for finance chart of accounts are Supplies – but not “instructional materials” because "instructional materials" meets the definition of textbooks.
Instructional Equipment

- means an activity-related, course related, or program-related tool or instrument that:
  
  (i) is required for a student to use as part of an activity, course, or program in a secondary school;
  (ii) typically becomes the property of the student upon exiting the activity, course, or program; and
  (iii) is subject to a fee waiver.

It doesn’t matter if the student keeps it after the school year ends or not, devices are explicitly included in the definition of textbook and the LEA may not charge a fee for the laptop. For novels, sheet music, laptops or chrome books, if the student damages the novel, sheet music or device, the LEA may require the student to pay for the damage or for replacement of the item (just like a student would be required to pay the replacement cost of a lost library book).

In reference to the laptops, as a laptop is not tied to a specific course but is used for all classes and is specifically addressed under the definition of a textbook, it would be considered a textbook, regardless of whether the laptop becomes the property of the student, and no fee may be charged for one beginning with the 2022-2023 school year. This includes any digital device or "computer hardware" that is purchased for a student to access instructional material.
Instructional Equipment includes:

- shears or styling tools;
- a band instrument;
- a camera;
- a stethoscope or
- sports equipment, including a bat, mitt, or tennis racquet.

Does not include school equipment.

R277-407-2(8)(b) & (c)
School Equipment

• Means a durable school-owned machine, equipment, or tool used by a student as part of an activity, course, or program in a secondary school.

School Equipment includes a saw or 3D printer.

Cannot charge school fee for maintenance costs of school equipment. – Purchased for use by more than the “individual student”.
Object Code 730+ – Equipment

School Fees – Utah Code

NO School Fees
Textbook includes “computer hardware, software, or digital content” (see 53G-7-601(5)) and for maintenance of school equipment. (see 53G-7-602(3))

These are not Instructional equipment.

Finance Chart of accounts

- M 730 Equipment Code items here that individually exceed the capitalization threshold established by the LEA. Examples include machinery such as lathes or drill presses or printing presses etc., school buses, non-bus vehicles, furniture, technology-related equipment and technology infrastructure such as network equipment, servers, and software used for educational or administrative purposes, etc.
- 731 Machinery
- 732 School Buses
- 733 Furniture and Fixtures
- 734 Technology Related Hardware
- 735 Non-Bus Vehicles
- 736 Technology Software
- 739 Other Equipment

These accounting code items 730+ are not “Instructional equipment” because they are specifically called out in the section of code.

Per school fees definitions First part chart of Accounts – in blue - is school equipment – Cannot charge school fees for or to maintain.

The second ½ of definition highlighted in yellow is defined as textbook or “INSTRUCTIONAL MATERIAL” not “INSTRUCTIONAL EQUIPMENT”
Instructional Supply

Means a consumable or non-reusable supply that is necessary for a student to use as part of an activity, course, or program in a secondary school.

- Prescriptive footwear
- Brushes or other art supplies, including clay paint, or art canvas;
- Wood for wood shop;
- Legos for Lego robotics;
- Film; or
- Filament used for 3D printing.

Instructional Supply – can charge a fee and subject to fee waivers.
Current Questions

1. If students are keeping their literary novels (since they are being annotated), does that fall within the definition of equipment or consumable supplies?

2. Can a deposit fee (refundable) be charged for technology devices?

1 – No fees for literary novels – they are considered instructional material

2 – Yes a fully refundable deposit can be charged – but $ only kept for amount of loss or damage, not for maintenance. And cannot impede use by students. See document on website “Electronic Device Deposits”.
Upcoming Requirements:

Part 2
School Fees

Equal or Less than expense incurred

UCA 53G-7-503(3)

(a) Beginning with or after the 2022-2023 school year, if an LEA imposes a fee, the **fee shall be equal to or less than the expense incurred** by the LEA in providing for a student the activity, course, or program for which the LEA imposes the fee.

(b) An LEA may not impose an additional fee or increase a fee to supplant or subsidize another fee.
School Fees Funding Uses

• Student fees begin with the student as the basis and fees are paid per student as an identifiable individual transaction. Therefore, the costs funded by school fees should also be limited to the individual student participation.
Funding Uses - continued

• Throughout the school fees regulations in Utah Code Annotated (UCA) 53G-7 Part 5 and R277-407 school fees are designated as singular (i.e., “a student” and “an activity”). Therefore, the school fees funds are restricted for a single student’s participation in a single activity, course, or program; this typically means items such as instructional supplies or instructional equipment a student needs to participate, student travel expenses or student membership costs.
Coordinating Spend Plan with Allowable Cost

53G-7-505(3)

(a) The fee schedule shall include the following:
   (i) a specific amount for each fee on the fee schedule;
   (ii) if a student is responsible for multiple fees related to one activity, class, or program, a clear and easy to understand delineation of each fee and the fee total for each activity, class, or program;
   (iv) a corresponding spending plan for each fee.

Earlier we discussed what is required in the Fee Schedules.
Delineation

• the action of describing or portraying something precisely.
Spend Plan - continued

(2) An LEA shall: (a) establish a spend plan for the revenue collected from each fee charged; and  
(b) if the LEA has two or more schools within the LEA, share revenue lost due to fee waivers across the LEA.

(3)(a) A spend plan described in Subsection (2)(a) provides students, parents, and employees transparency by identifying a fee’s funding uses.

(b) An LEA or school’s spend plan shall identify the needs of the activity, course, or program for the fee being charged and shall include a list or description of anticipated types of expenditures, for the current fiscal year or as carryover for use in a future fiscal year, funded by the fee charged.

Earlier we discussed what is required in the Fee Schedules.

R277-407-13:

(2) An LEA shall: (a) establish a spend plan for the revenue collected from each fee charged; and  
(b) if the LEA has two or more schools within the LEA, share revenue lost due to fee waivers across the LEA.

(3)(a) A spend plan described in Subsection (2)(a) provides students, parents, and employees transparency by identifying a fee’s funding uses.

(b) An LEA or school’s spend plan shall identify the needs of the activity, course, or program for the fee being charged and shall include a list or description of anticipated types of expenditures, for the current fiscal year or as carryover for use in a future fiscal year, funded by the fee charged.

(4)(a) Financial inequities or disproportional impact of fee waivers may not fall inequitably on any one school within an LEA.

(b) An LEA that has multiple schools shall establish a procedure to identify and address potential inequities due to the impact of the number of students who receive fee waivers within each of the LEA’s schools.
THE SPENDING PLAN DESCRIBES THE TYPE OF EXPENDTURE THE FEES CAN BE USED TO PURCHASE.

This is an excerpt from a fee schedule. You can see that they have listed the activity (Football), multiple fees (participation, spirit pack, team banquet), each fee also has the spend plan-list of anticipated expenditures. And the fee total (up to $360).

They’ve also identified the funding sources: parent out-of-pocket and the items expected to be covered by required group fundraising. The parent can see that the fee for football would be $150 ($65 participation, $50 additional fee, $25 physical, $10 transportation) plus the requirement to participate in the group fundraiser. SEE the FUNDRAISING Guidance document on the website.

Full transparency is the goal.
School Fees Monitoring
### Review Schedule

#### 5-year review cycle
- Enrollment > 10K
- Visit LEA
  - Administration of school fees
- Visit 5% of schools
  - Minimum of 2 schools
    - 1 Elementary & 1 Secondary
    - Remaining Secondary

#### 10-year review cycle
- Enrollment < 10K
- Visit LEA
  - Administration of school fees
- 1 school visit

LEA’s with enrollment greater than 10,000 will receive an on-site review once every 5 years. The visit will consist of an on-site visit at the LEA for administrative functions and visiting 5% of the schools, minimum of 2 schools 1 elementary and 1 secondary. With the remaining school visits at secondary schools if the 5% = 3 or more.

LEA’s with enrollment less than 10,000 will receive an on-site review once every 10 years.

Visits will consist of an on-site visit at the LEA for administrative functions and 1 school, unless the LEA and school operate as one.

School sites will be determined by the responses on the certificate of compliance survey.
Annual Risk Assessment

• Overall risk score greater than 5, LEA will receive an additional on-site review.
  • LEA Average Cost per Student
  • LEAs % Eligible Student NOT Participating
  • Calls from Parents/Guardians
  • Certificate of Compliance Responses
• Exception - LEA on-site review is scheduled

Annually we conduct a risk assessment. Each LEA is given an overall score based on:
• Average cost per student greater than the state average
• % of estimated eligible student not participating > 45%
• Calls received from parents
• Certificate of compliance response to the 5 questions that were determined to have the most significant risk to students.

Those LEAs that receive a risk score greater than 5 will receive an additional on-site review. The exception is if the LEA is already scheduled for an on-site.
Areas Reviewed

• School Fee Policies
• Fee Schedule w/Spend Plan
• Fee Schedule/Policies Approval
  • Public meeting notices
• Parental Notice
  • Public meetings
  • Registration Materials
• Publicly available on LEA and school website

Prior to coming on site we will review the school fee policies to ensure they contain the required components. The fee schedule is easily found on the LEA and schools website, and that it is publicly available.

We will be verifying that the fee policies and fee schedule were submitted with the Certificate of Compliance, properly noticed per the Open and Public Meetings Act, 2 public meetings for public comment were held, and it contains the requirements set forth in Code and rule. Approved by April 1.

Parents are given notice of the public meetings via normal channels for school information. i.e. email, text, etc.

School fee documents are included in the registration materials

If this can’t be done before hand we will be reviewing the documents on site.
Areas Reviewed - continued

Elementary School
• School Supply list contains the appropriate language
• No fees are charged for activities during the regular school day
• Activities outside the regular school day are included on the approved fee schedule.
  • Does not affect a student's grade or ability to participate in any course taught during the regular school day.

Administration of School Fees
• All fees are listed on the fee schedule and are subject to fee waivers
• Appointed school level administration – discuss fee waiver process, denial, appeals, confidentiality.
• Extenuating circumstances

Accounting Process
• Review the accounting process for school fees

Camps and Clinics
• Private but public education related. Ensure they are promoted as non-school sponsored otherwise school fee statute and rule apply.

Annual Staff Training
• Review training material/presentation and who attended. How new hires are trained.
Thank you !!!
