

## Frequently Asked Questions (FAQs)

1. Can we add additional attachments and/or appendices to support our proposal?

- There have been community questions regarding the opportunity for providing additional attachments beyond the required "*Attachment A: Budget Form*" that is included in the required forms. Please note that we will not be accepting additional attachments or appendices for review by the committee. The page limit stated in the narrative serves the purpose of creating a standard length to allow all proposals to be evaluated on the same volume of information. It also allows our reviewers to look at the applications in the time that we have allotted. Please do not submit additional materials beyond the required "*Attachment A: Budget Form*" as they will not be considered as part of your review.

2. Where should I submit my application?

- All proposals (including charter school applicants) are to be submitted to Ricky Scott.
