The Utah State Board of Education, in January of 1984, established policy requiring the identification of specific core standards to be met by all K–12 students in order to graduate from Utah’s secondary schools. The Utah State Board of Education regularly updates the Utah Core Standards, while parents, teachers, and local school boards continue to control the curriculum choices that reflect local values.

The Utah Core Standards are aligned to scientifically based content standards. They drive high quality instruction through statewide comprehensive expectations for all students. The standards outline essential knowledge, concepts, and skills to be mastered at each grade level or within a critical content area. The standards provide a foundation for ensuring learning within the classroom.

Introduction

The school library program is critical to students' academic and personal success. The necessary skills for college and career ready students include literacy in a wide range of digital, visual, and textual formats. Effective school library media programs enable students to develop critical thinking skills to access, evaluate, synthesize, and apply information; make informed decisions; build a knowledge base; and value reading.

These Utah Standards for Library Media were created by certified teacher librarians to support the integration of information literacy and media skills across the curriculum. They are intended to be taught, not in isolation, but in collaboration with classroom teachers. This collaboration will deepen student learning, foster independent reading, develop reading stamina, build task resiliency, strengthen text-dependent writing, and increase the students’ information literacy. The standards are organized into three clusters:

1. Reading Engagement
2. Research and Information
3. Media Literacy

Informative handouts, tutorials, and implementation tools are available through the Utah State Office of Education website at http://www.schools.utah.gov/CURR/library/Core/K5.aspx and the Utah Education Network. For example, a scope and sequence is available to support implementation of the standards across the K–5 continuum.
Reading Engagement

Reading engagement is a foundational skill for learning, personal growth, and enjoyment. The degree to which students can read and understand text in all formats and all contexts is a key indicator of success in school and in life. The goal is to actively promote reading and provide equitable access to literary and informational texts in a variety of subjects, genres, and formats. The standards facilitate the acquisition of tools, knowledge and skills to allow every student to read for interpretation and the development of new understandings.

Strand 1: READING FOR INTELLECTUAL, PERSONAL, AND EMOTIONAL GROWTH

■ Standard 1: Establish reading behaviors for lifelong learning and growth.
  a. Select texts from a variety of formats and genres to read for enjoyment, acquire knowledge, and answer questions.
  b. Gain understanding and make connections while reading and interacting with text.
  c. Demonstrate perseverance and stamina when reading or listening to a variety of texts.
  d. Listen to, view, read, and integrate information to build a knowledge base.

■ Standard 2: Differentiate between literature (fiction) and informational (nonfiction) text.
  a. Categorize text as literary or informational.
  b. Use selection criteria (e.g., interest, content) when choosing materials for a defined purpose.

Strand 2: MEANING OF TEXT THROUGH FORMAT AND TEXT FEATURES

■ Standard 1: Demonstrate knowledge of the physical features (e.g., cover, spine, title page, cursor, scroll bar) of reading materials, both electronic and print.

■ Standard 2: Read, view, and listen for information presented in a variety of formats (e.g., textual, visual, media).

■ Standard 3: Identify the elements of story.

■ Standard 4: Identify the roles, tools, and purposes of authors, illustrators, and other contributors to a text.
Strand 3: LIBRARY PURPOSE AND FUNCTION

- **Standard 1:** Exhibit library etiquette.

- **Standard 2:** Understand the library layout, the library classification system, and the circulation process.

- **Standard 3:** Contribute to a reading and learning community, including recommending reading materials to peers and respecting others’ reading choices.

- **Standard 4:** Make use of personal, community, and global libraries, both physical and electronic.
Information and Research

Through engagement in the research process, students will apply critical thinking skills (e.g., analysis, evaluation, organization, synthesis) to draw conclusions and construct new understandings. Additionally, students will engage in research processes (e.g., inquiry-based, information problem solving). Such experiences will develop student self-confidence in solving problems in an environment where information resources and technologies are increasingly complex.

Strand 4: DEFINING AN INFORMATION PROBLEM AND IDENTIFYING INFORMATION NEEDED

■ Standard 1: Define an information problem.
  a. Analyze the task to identify the information problem.
  b. Seek clarification from teachers and others.
  c. Select and narrow (or broaden) topics into a manageable focus.
  d. Conceptualize the form of the final product based on target audience and criteria for evaluation.

■ Standard 2: Identify the information needed.
  a. Analyze the task and information needed.
  b. Generate essential questions for new understanding and to guide inquiry.
  c. Select, narrow (or broaden) keywords and phrases in search terms.

Strand 5: IDENTIFYING, EVALUATING, AND SELECTING SOURCES

■ Standard 1: Identify information sources (e.g., texts, places, people).

■ Standard 2: Evaluate and select sources based on predetermined criteria (e.g., relevancy, currency, credibility).

Strand 6: LOCATING SOURCES AND ACCESSING INFORMATION

■ Standard 1: Locate identified sources.
  a. Demonstrate how to navigate library catalogs, the Internet, and databases.
b. Apply effective location skills, asking for help as needed.

c. Revise and focus search as necessary to yield more effective results.

**Standard 2:** Access information within sources by using relevant tools (e.g., table of contents, indexes, keyword searches, sidebars, related subjects).

**Strand 7: ENGAGING WITH AND EXTRACTING INFORMATION**

**Standard 1:** Engage with information by reading, listening, and viewing sources in a variety of formats.

a. Use questions to guide reading, listening, and viewing of sources while building connections between prior knowledge and new information.

b. Analyze and make sense of information (e.g., identifying main ideas, supporting details, bias, point of view, misconceptions, conflicting information).

**Standard 2:** Select, extract, and record information that addresses the information problem, answers guiding questions, and meets evaluation criteria.

a. Apply critical thinking skills to evaluate and select information in terms of relevancy, currency, and credibility, including fact and opinion, bias, prejudice, and propaganda.

b. Validate and compare information in sources, noting differences, contradictions, types of data or research methods.

c. Use a variety of note-taking strategies, including summarizing and paraphrasing, while noting sources.

d. Monitor gathered information for gaps and weaknesses and modify questions, sources or strategies as needed to elicit adequate information.

**Strand 8: ORGANIZING, SYNTHESIZING, AND PRESENTING INFORMATION**

**Standard 1:** Organize information from multiple sources.

a. Organize, evaluate, and synthesize selected information to support conclusions.

b. Select the format of the learning product for the designated audience, and use technology or other tools to integrate, organize, and present information from multiple sources.

c. Follow ethical and legal guidelines in using and citing information to avoid plagiarism and copyright violations.

d. Apply evaluation criteria to create, revise, and finalize the learning product.
e. Collaborate with others to exchange ideas, make decisions, create products, and peer edit as appropriate.

- **Standard 2:** Present a learning product using a variety of presentation techniques (e.g., writing, speaking, media) to communicate new understandings.

**Strand 9: EVALUATING THE PROCESS AND PRODUCT**

- **Standard 1:** Evaluate the execution of the product for efficacy and quality, and identify areas needing improvement to determine how to proceed in the future.
  a. Assess the product based on pre-established evaluation criteria.
  b. Reflect upon how the product could be improved or modified.
  c. Solicit, reflect, and act upon peer reviews and teacher comments about the product.

- **Standard 2:** Identify areas of the processes that were successfully executed, as well as those needing improvement, to determine how to proceed in the future.
  a. Reflect upon how the process could be improved or modified.
  b. Reflect upon and describe the level of personal satisfaction with the process and product.
  c. Identify areas of personal growth, technology, and time management skills, including the ability to collaborate.
Media Literacy

Media literacy is the competent application of literacy skills to media and technology messages. Its goal is to help students develop the habits of inquiry and skills of expression that they need to be critical thinkers, effective communicators, and active, digital citizens in today’s world. By learning the standards and objectives, students will acquire an understanding of the elements, construction, and potential impact of media messages while learning to make informed choices in the use of media. Through collaboration with classroom teachers, these standards can be integrated into curricular units throughout a wide range of subjects to ensure students are equipped with these essential 21st century skills.

Strand 10: AWARENESS, MODERN CITIZENSHIP, AND INFORMED DECISION MAKING

- **Standard 1:** Define basic terms and concepts of media.
- **Standard 2:** Recognize that media messages are intentionally constructed.
- **Standard 3:** Recognize that people experience the same message differently.
- **Standard 4:** Understand how the use of media can broaden experiences throughout life.
- **Standard 5:** Identify and explain the rights and responsibilities with respect to media and digital citizenship.

Strand 11: ANALYZING, QUESTIONING, AND THINKING CRITICALLY

- **Standard 1:** Analyze techniques used to construct media messages.
- **Standard 2:** Analyze the impact of media messages on a receiver.

Strand 12: EVALUATING ELEMENTS

- **Standard 1:** Evaluate media messages for accuracy, authenticity, relevance, and source authority.
- **Standard 2:** Evaluate and select media for personal and educational use.
Strand 13: PRODUCING AND PRESENTING

- **Standard 1:** Identify messages for presentation, using a multi-step process, by determining intent, content, audience, and length.
- **Standard 2:** Develop and apply criteria for quality media productions.
- **Standard 3:** Create, present, and evaluate the final product.

Strand 14: DIGITAL CITIZENSHIP

- **Standard 1:** Understand and practice safe and responsible use of information and technology.
- **Standard 2:** Identify issues with and consequences of misusing media.
