9 Problem Solving and Data Analysis	8 Passport to Advanced Math	

Online Score Report

Go online to get more details about your score, including area of strength, and check out the next steps in Skyline to help you boost your reading score.

How Did I Score Compared to Others?

A percentile is a number between 1 and 99 that shows your rank compared to other students. It represents the percentage of students whose scores are lower than yours. For example, if your Math score is 520, that means 57 percent of test-takers have scores equal to or below yours.

You'll see two percentiles:
The Nationally Representative Sample Percentile shows how your score compares to the scores of all U.S. students in your grade, including those who do not typically take the test.

50th Percentile — National shows how your score compares to the scores of students who typically take the test.

Will My Scores Change and Why?

Tests are not exact measures, and many factors can affect your score. After all, no two days are the same, and if you took the SAT once a week for a month your scores would change.

That's why it helps to think of your true score as a range from a few points below to a few points above the score earned. Score ranges show how your score can change with repeated testing, assuming your skill level remains the same.

Usually, scores for Evidence-Based Reading and Writing and for Math fall in a range of roughly 30 to 40 points above or below your reported score.

Total: Your score ± 40 points.

Section: Your score ± 30 points.

Test Scores and Cross-Test Scores: Your score ± 2 points.

Subscores: Your score ± 2 points.

Am I on Track to Be Ready for College?

You'll see a benchmark score for each section of the SAT. Benchmarks show your college readiness. The Evidence-Based Reading and Writing benchmark is 480 while the Math benchmark is 530. This means if you score at or above the benchmark, you're on track to be ready for college when you graduate high school. If you score below the benchmark, you can still get back on track by focusing on areas where you didn't perform well. Use the detailed feedback in your online score report to see which skills you need to work on most.

Test Score					
Subject Test					
Test Score					
Subject Test					
Literature					
Test Score	650				

*Scores from the SAT Subject Test in Mathematics are not comparable to Math section, test, and related subscores on the SAT.
 *Note: SAT Subject Tests have subscores.

How Should I Send My Scores to Colleges?

This student score report is for your use only. Most colleges require you to have the College Board send them official score reports — they don't accept copies of student score reports, online score reports, or score report labels on transcripts. Score Choice™, you decide which scores to send to colleges. Choose by test date for the dual test or SAT Subject Tests™ — with an institution's stated score-use policy. Visit www.collegeboard.org/scores for details on your scores and more information on sending scores to colleges.

College Plan

There are a lot of great possibilities to explore in choosing a college. Get a step-by-step road map and advice on what to do when. Access your online score report for details.

SAT Practice

Keep improving your college readiness skills by connecting to FREE, world-class personalized practice recommendations online on khanacademy.org/sat.

AP® and SAT Subject Tests™

Get ahead by challenging yourself. You may still be able to take AP® courses and SAT Subject Tests aligned with majors you're interested in. Some colleges may use those scores to place you out of introductory-level college courses.
