Learning To Lead In A Technical World

**Mission:** To foster personal growth, leadership, and opportunities in Science, Technology, Engineering, and Mathematics (STEM).

- TSA is the oldest student organization dedicated exclusively to students enrolled in technology education classes grades K-12.
- Since TSA was chartered in 1978, almost four million student members have participated through challenging competitions, leadership opportunities, and community service.
- TSA members apply and integrate STEM concepts through co-curricular activities, competitions, and related programs.
- TSA has grown in size, strength, structure, and has positively affected students and secondary school programs across the nation.
- TSA is supported by educators, parents and business leaders who believe in the need for a technologically literate society.
- TSA members learn through exciting competitive events and leadership opportunities. From engineers to business managers, alumni credit TSA with a positive influence on their lives.

“TSA has given me the opportunity to be a leader and has shown me what it takes to be one. TSA has brought people from different backgrounds together in competitions and that is what makes TSA great!”

Noelia Kunzler, Utah TSA president

In Utah, CTSOs align with the national CTE Career Clusters® and 35 CTE Career Pathways.

TSA members are challenged to use and improve their STEM skills in both team and individual competitive events—locally and nationally.

**GOALS**

Utah TSA Goals for 2022-2023:
1. Recruit and retain membership across multiple CTE Pathways to broaden opportunities for a wide variety of students.
2. Provide a variety of rich experiences, in addition to participation in competitions, while attending state TSA events.
3. Increase awareness and communication through an active social media presence.

**SERVICE**

The TSA service project raises funds and awareness for the American Cancer Society. During the school year, TSA chapters around the state raise money to help fund vital research, education, advocacy, and patient services of the American Cancer Society.

**TEACHING**

TSA activities are correlated to the Standards of Technology Literacy, as set by the International Technology and Engineering Educators Association (ITEEA). Secondary teachers can use TSA activities during the school day to extend learning beyond the classroom through a TSA chapter.

Utah CTSOs are open to all qualified students without regard to race, color, national origin, sex, disability, or age.

**Fall Leadership Conference**

"I loved this conference. My leadership teams came away with some amazing ideas and are really ambitious with their plans to have great chapters this year.

I have done TSA for six years and this is the most enthusiastic I've ever seen a group of leaders after the leadership conference."

Kurt Twining, Utah TSA advisor
