

## Catching Crabs

Luigi emptied the crabs from the wire pot into the wooden box.	10
“There are lots of crabs,” said Carlo. “But they look small.”	12
“They are small,” said Uncle. “Not one crab is big enough to keep.”	22
“See what has happened,” cried Papa. “There should have been at least twenty big crabs.”	23
“Perhaps the next pot will be full of big ones,” said Carlo.	33
Uncle tossed the little crabs back into the ocean. Then Luigi dropped the crab pot into the water. It landed with a splash and sank to the bottom of the sea, far below the orange colored float.	36
