

## High School CPR/AED Grant Application

Each day over a 1000 people in the United States suffer a heart attack. Sadly, only 12% of those individuals are likely to survive. Immediate CPR and AED use can triple the rate of survival but not enough people know how to perform effective CPR or use an AED.

With support from the Utah State Legislature, American Heart Association, and the Utah Department of Health, the Utah State Board of Education will provide a reimbursement of \$6.00 per pupil specifically for the high quality CPR and the use of an AED. These funds are available for the 2019-2020 school year.

These funds support high school Health classes. Districts and charter schools must apply by October 1, 2019 for these per pupil funds. Funds will be distributed twice a year through the reimbursement process.

High School Health CPR Reimbursement Process:

1. LEA coordinator or representative for high school health sends the application to USBE **by October 1, 2019**.
2. Utah State Board of Education reviews and notifies LEA with an Award Letter via email.
3. Schools or LEA offices responsible for paying total amount for services meeting standards and proposed action plan. Schools or LEA's will send an invoice from the district approved by the **Business Administrator to USBE**. Full reimbursement from Utah State Board of Education will be sent.
4. Schools agree to follow the guidelines outline in this application and the attached performance measures.
5. Following completion of classroom training, LEA's will **submit an invoice billing the Utah State Board of Education on district or charter letterhead**. The invoice must include: an invoice number, number of instructors used, number of students trained, reimbursement amount of \$6 per student, and the total reimbursement amount being requested (\$6 times number of students trained).
6. LEA's will submit reimbursement for each semester, February and May.

# Utah State Board of Education CPR High School Training Application

Application Due Date: October 1, 2019

All Completed Applications that follow guidelines will be approved

Applying LEA: \_\_\_\_\_

LEA Coordinator: \_\_\_\_\_ Email: \_\_\_\_\_

Number of Students 2019-2020 \_\_\_\_\_ (\$6.00 per student)

Total requested amount \_\_\_\_\_

Flexibility will be given for schools to use these funds. Check the appropriate option that best fits the needs and resources of your school.

- Will use local EMS for certified instruction
- Will provide classroom training through a certified school instructor or course
- Will contract with a local agency or group who specializes in CPR instruction
- Other: \_\_\_\_\_

It is important to note that regardless of what training option you use, the following performance measures must be met:

1. Training will be from a certified CPR and AED instructor
2. Instruction must follow current ECC (Emergency Cardiovascular Care) guidelines for CPR and the use of an AED
3. Instruction must include cognitive (visual) and psychomotor (hands-on) training
4. Instructor to student ratio should not be greater than 15:1
5. Mannequin to student ratio should not be greater than 6:1
6. The school/district is responsible for tracking the following items and reporting them back to the USBE
  - a. The number of student trained
  - b. The number of instructors used
  - c. Any recordable successful use of CPR/AED during an emergency by a student or faculty member

Provide a brief description of LEA or school action plan for implementation on the space provided below.
