

A School Map

Ava's brother Jarrell was going to go to her	9
school. Ava had an idea. She got a piece of paper	20
and crayons. She drew a box at the top of the	31
paper. Next to it she wrote, "Ava's classroom."	39
She drew a box at the bottom of the paper and	50
wrote "Jarrell's classroom."	53
She drew two more boxes in between. On the	62
first one she wrote "the office." On the second	71
one she wrote "the gym." Next Ava drew a blue	81
dot. She wrote "water fountain" next to the dot.	90
Ava showed the page to her brother. It was a	100
map of the school. Jarrell was happy. Now he	109
knew where he was going. He could even find the	119
water fountain!	121
