Do you know what CTE is? Watch this CTE 101 video to find out:

FACT: 89 percent of parents think students should receive more education about career choices while in high school.

FACT: CTE learners have a 10 percent higher high school graduation rate than non-CTE students.

FACT: CTE learners and their parents are three times more likely to report that they are very satisfied with their ability to learn real world skills.

FACT: About half of all CTE learners are enrolled in programs in leading fields such as health care, STEM, and information technology.

FACT: More than twice as many CTE parents report being satisfied with internship opportunities.

FACT: Over 75 percent of CTE learners enroll in post-secondary education after high school.

FACT: Six of the ten hardest-to-fill positions are in technical fields or require a CTE background.

Career and Technical Education (CTE) prepares learners for their futures while closing the skills gap for employers across the country. CTE gives learners an academic foundation along with technical skills and hands-on experience in numerous areas to get ready for the real world.

CTE gives learners an academic foundation along with technical skills and hands-on experience in numerous areas to get ready for the real world.
