

## Dark Sky

Ana put an apple in her shirt pocket and hurried outside	11
to see the horses. She walked over to the pasture and stood by	24
the fence.	26
Black Magic and Silver Dollar were quietly chewing the	35
new spring grass, but not Dark Sky. He seemed excited as he	47
circled about inside the fence.	52
How Ana loved to watch him! He held his proud head	63
high in the air and kicked his strong legs.	72
Ana wished Dad would change his mind! She would	81
give anything, she thought, for a chance to train Dark Sky.	92
But she felt that her wish to train him was just a dream.	105
