Access Prevention: Is your safety on?

Lock

Store guns safely and securely when not in use. Change your gun locks if necessary, and make sure the keys and combination aren't accessible.

Limit

Lock guns and ammo separately, or don't keep ammunition in the home at all. Ask to temporarily keep the keys to any gun of a friend who is struggling.

Remove

Temporarily store firearms off site until the situation improves, perhaps at a friend or relative's house. Gun shops and law enforcement may offer storage options.
