Digital Citizenship and Safety Principles

Best practice is to combine the discussion:

District provides information/report on digital citizenship and school safety

- Is annual student training on digital citizenship adequate, or is there something we should address?
- Do parents have adequate training available to them?
- Discuss what the council can do within their purview to implement safety principle(s) in the school?
- Create and implement a plan.

Digital Citizenship and Safety Principles (cont'd)

Ask administrators, counselors and school employees – What are your greatest concerns?

- Are current requirements in the law being implemented? Could councils implement or support:
 - School Facility Emergency and Safety *Board Rule R277-400*
 - Suicide Prevention – Parent Education *Utah Code 53G-9-703*
 - Policies for Electronic Devices in Public Schools *Board Rule R277-495-3*
 - School Climate Survey to assess stakeholder perception *Board Rule 53G-8-802*
- How could councils help resolve concerns identified in the report, by school personnel and parents?
