**Description**

Description of Announcement & Funding

These funds are to support schools that have exited Turnaround in Cohort 1 and Cohort 2, and who have not been identified as schools in improvement. These are all Title 1 schools that USBE is wanting to support so they can sustain their growth long term, and not slide back into Turnaround or CSI status. We recognize these schools have exited during difficult times with unique distance learning needs without funding that they did have access to while they were in turnaround status. It is USBE's intent that these funds can help the school further maintain their improvement, and to support continued growth while working in a shifting landscape due to COVID19.
