

Salary Supplement for National Board-certified Teachers (SSNBCT)

SSNBCT Pre-Payment Program Enrollment Steps

The purpose of this program, [Utah Code 53F-5-202](#), is to help cover the costs incurred by a teacher while obtaining or maintaining a National Board for Professional Teaching Standards (NBPTS) certification. USBE will cover those costs as a pre-payment **or** “refund” from National Board for personally paid fees before completion of the certification. Application for the Pre-Payment Program should be done within the same cycle an educator registers to earn or maintain a NBPTS certification.

To be eligible, teachers must meet **all** the following to enroll in the NBPTS certification program:

- Possess a bachelor’s degree from an accredited institution (Career and Technical Education are required to hold a bachelor’s degree if their assignment requires one for their license).
- Complete three years of successful teaching by the conclusion of the NBPTS certification in early childhood, elementary, middle, or secondary schools. Applicants for ECYA/School Counseling must have completed three years successfully serving as a school counselor by the conclusion of the NBPTS certification.
- Hold a current Professional Educator License and assignment in a Utah local education agency (LEA).

NBPTS Initial Website Enrollment

Teachers interested in obtaining or maintaining a NBPTS certification can find information at [NBPTS](#). Review the **Eligibility Prerequisites** on their website and determine a preferred area of certification. **Confirm with the administrator their approval for the program before submitting any initial payment.** (The registration fee is non-transferable, non-refundable, and ineligible for pre-payment).

The initial certification program is designed to be completed within 1 to 3 years. The Maintenance of Certification (MOC) program is designed to be completed within 2 years. The USBE application deadline and component selection must be completed between **July 1st and January 31st of the current program year**. When the registration fee must be paid (by the teacher), then they will be able to determine the number and order of the program Components to be completed in the first cycle.

The “renewal” program was replaced by the MOC beginning September 2020. It is the Board-certified teacher’s pathway for keeping their certification active. The process is designed to recognize that a Board-certified teacher is growing professionally and maintaining a positive impact on student learning. MOC is consistent with the National Board’s goal to make the Board certification process more affordable, flexible, and more accessible to teachers.

Candidates wishing to withdraw from the program must first follow the NBPTS’ requirements then send a notification in writing to the Program Specialist at eip@schools.utah.gov explaining the reason(s) for the withdrawal **before January 31st** of the current program year. Program withdrawals may affect eligibility in any future program enrollment.
