

Join Utah's SB127 Science of Reading and Community Engagement Project

Be part of a dynamic, state-funded initiative designed to strengthen early literacy by building meaningful connections between schools, families, and communities.

Participation Includes:

Classroom-Ready Resources

Tools and materials aligned with the Science of Reading to elevate instruction and support family engagement.

Expert Coaching & Support

Work side-by-side with literacy coaches to strengthen community partnerships and promote reading success beyond the classroom.

Family Event Modeling

Get hands-on guidance in hosting impactful events that help families build strong at-home reading habits.

Why It Matters

Participation helps build a literacy-rich culture that ensures:

- Families are empowered with practical reading strategies
- Students experience improved reading skills and academic growth
- Schools see stronger family-school connections and engagement
